Adopted 5/11/04

X = Land use is compatible/allowable
0 = Land use incompatible/not allowable
1 = PUD or site plan review
2 = Planned unit development required, except for cemeteries or for religious facilities to be used solely for religious functions. P.U.D. requirements will apply if ancillary facilities are proposed in conjunction with religious facilities.
3 = Permitted where sufficient stormwater management capacity exists within the basin
4 = Consistent with aquifer recharge policies contained within the Conservation Element
5 = Permitted outside of Urban Service Boundary
6 = Permitted only at those intersection quadrants which previously have been developed
7 = Permitted in conjunction with mixed use project (footnote deleted)
8 = Cluster development required (Max. 12 DU/AC)
10 = Agricultural related only
11 = No access to canopy road
12 = Residence for security or caretaker personnel allowed
13 = Office use permitted if ancillary to industrial use
14 = Intended for lower level of density range
15 = Secondary access only approved in conjunction with site plan, PUD or DRI

16 = Direct access allowed outside urban service area or on previously platted lot
17 = Primary access to canopy road permitted only when alternate access to non-canopy roads is unavailable. Primary access shall be restricted to one driveway designed to mitigate impacts. Planned development required for approval.
18 = Commercial restricted to 50,000 sq ft
19 = Permitted in county portion of category. (Rainfall runoff must be retained on site) P.U.D. required
20 = Permitted on lots greater than 1/2 acre (Sewer Policy 2.1.3)
21 = Permitted for appropriate facilities located outside of Urban Service Area (Sewer Policy 1.3.7)
22 = May be permitted for sandmines or borrow pits (Conservation Policy 3.2.3)
23 = Commercial limited to one quadrant of the intersection
24 = Access allowed outside the Urban Service Area for Community Services operated by public agencies
★ 25 = Commercial and Office restricted to 5000 sq ft of gross building floor area per parcel and 10,000 sq ft of gross building floor area per acre provided BOTH standards are met.
☆ 26 = Minor Offices permitted access onto local streets within Neighborhood Boundary category only

NA = Not applicable
* = To be used in conjunction with Future Land Use Map and applicable goals, objectives and policies contained within the Comprehensive Plan

★ Proposed

(A) - An incompatible land use may be permitted with an adequate buffer when its incompatibility with an adjoining land use is along rear property lines. This does not apply to heavy industrial adjoining residential.
(B) - Non-residential uses permitted on all streets and intersections designated as non-residential streets.
(C) - Applies to the specific environmentally significant area on site and the plan requires site specific assessment of development impacts on endangered, threatened and species of special concern (plants and animals)
(D) - This portion of the matrix does not apply when existing land use is nonconforming.
(E) - May be waived pursuant to land use policy 3.1.5, or if commercial contained within Mixed Use PUD or DRI development
(F) - See Transportation Policy 1.4.4
(G) - Up to 50 DU/AC allowed in University Transition
(H) - Up to 25 DU/AC Allowed in University Transition
(I) - Existing adjoining land uses are not a factor for proposed medium and high density residential in University Transition.

33

Note:
Matrix is intended to be a pictorial representation of existing policies in the Comprehensive Plan.

DOES NOT APPLY TO MIXED USE, DOWNTOWN AND WOODVILLE RURAL COMMUNITY

County Ord # 04-10
City Ord # 04-O-35
