Evaluation Methodology:

A. Cost evaluated by life cycle of 5-year contract, and points apportioned by percent deviation to low bid.
B. & C. Submittals evaluated by responses to individual bid requirements, and totaled by section.
Final Score - The cumulative total of bid evaluations received from each individual section of bid.
Final Rank - Established on the basis of overall scores, arranged from high to low, in consecutive order.

	Local Vendor Preference	MBE:
Barkley		√
C. Moses	√	√
Diamond Det.		

Authentication:

Shawn Johnson
April Lee
Colleen Boatic

Footnotes:

1 Life cycle cost is the total cost over the life of contract, which also considers the contractor's maximum annual percent of increase.
2 Maximum cost differential for local preference is $20,000 per local preference ordinance.
