

Arbor Day Celebration

Tree Plantings

Saturday January 26, 2008

9:00 AM – until all the trees are planted!

Alford Arm Greenway

This year Leon County and the City of Tallahassee are working together on a very exciting tree planting project. The event will take place at the Alford Arm Greenway where we will be planting 1,250 longleaf pine seedlings as part of a habitat restoration project.

To get to this Arbor Day project, go south on Pedrick Road off Bucklake Road or Highway 90. Follow Pedrick Road all the way to its end, which is the entrance to the park. Park employees will then carry you on a hayride into the planting area!

The planting starts at 9:00 A.M. Bring shovels (if you have one), gloves, drinking water, and friends!

It takes work and commitment to have a place with as many wonderful trees as we have here in Tallahassee and Leon County. With that in mind, please come and be a part of the Arbor Day planting.
