

# Elections 2012

## Poll Worker Information and Training Information

### News and Information

Prior to each election, state law required each poll worker to attend a training session.

In response to your feedback, we have restructured our training program to provide our newest team members with comprehensive hands-on training while providing our more experienced poll workers with a different training program.

We have a mock precinct set up in our new Voting Operations Center so that anyone can come and practice or sign up to participate in our Open Labs which are available the week prior to each election.

We want you to be comfortable and prepared for a great Election Day.

Call us today to schedule your class!

### Online Poll Worker Access

If you are interested in going online to sign up for online training, or to simply review the latest training materials and your poll worker record, you will need your unique ID and password.

If you have not requested an ID and password yet, and you have an email account, then contact our office and we can send you the login information! Call us at 606-8607 or email us at [pollwork@leoncountyfl.gov](mailto:pollwork@leoncountyfl.gov).

See you online!

### Poll Worker Training

All classes will be held at our new Voting Operations Center located in the shopping center on the corner of Apalachee Parkway and Capital Circle SE. For directions please call our office at 606-8607.

Class size is limited and seats fill up quickly! To assure your place in the class you want, you must register early!
