

## WHEN THE CHARGE IS GONE FROM BATTERIES

More than ever before, our tools and devices run on batteries. Many Leon County residents ask how they can safely dispose of them.

They can dispose of all rechargeable, lead-acid and button batteries for free by visiting:

- The Hazardous Waste Center
- A Rural Waste Service Center
- A Collection Event.

Alkaline batteries are no longer hazardous and can be placed in regular garbage. All other batteries are sent to licensed contractors for recycling.

For more information, please call 606-1803 or visit our website: <http://www.leoncountyfl.gov/HHW/>

Businesses can call 606-1816 for an appointment. Disposal fees will apply.
