**CC:**

Shington,

In order to provide a licensed counselor at the Masters Degree level the cost will most likely be \$60,000 plus benefits, or \$78,000 apiece. The licensed individual can bill Medicaid for services. If you don't want a licensed counselor, we can get them for about \$45,000 plus \$13,500 in benefits, or \$58,500 apiece. However, you cannot bill Medicaid for their services.

I don't know which way NHS wants to go, so total costs can be either \$117,000 or \$156,000.

Hope that answers your question.

Homer

Good afternoon Homer,

As you know, this morning the Board of County Commissioners directed staff to identify the potential cost of contracting with the Health Department for two mental health coordinator positions at the Bond and NHS locations. As the Board prepares to conclude its workshop on the tentative budget for FY08, staff is requesting information on the potential cost of contracting with your department for two mental health coordinators. If you have any questions please feel free to contact me at the number below or on my cell phone at (305)969-7831.
