

LEON COUNTY E.M.S.
Standard Operating Guideline

Title: Prohibition of Photographs and Videos
Effective: June 22, 2005
Reviewed: December 2012
Revision: 1
Pages: 1

I. GUIDELINE:

Employees are prohibited from making or permitting another to make a recording, photograph, and /or video of any patient or incident scene.

HIPAA considers recordings, photographs and videos of patients Protected Health Information. Therefore, employees are prohibited from making a recording, photograph and / or video, digital or any other type, of any patient or the scene of any incident including vehicle accidents.

Violation of this SOG will be considered serious and will result in appropriate disciplinary action up to, and including, termination.

Exceptions to this SOG are instances where it is necessary for supervisory staff to take pictures of incidents involving County assets and personnel as a part of an official investigation and / or for the creation of an accident / incident report.
