

Animals, Plants, and Fish that live near/in the Water

The ocean is very deep. We see only the surface and the animals, plants, and fish that live there. Check out a book at the library and find out about something that lives in or out of the water. Draw, color, or download a picture from the internet of something that lives in or near the water and bring it to the library for the “aquarium.” If you want it back, remember to pick it up at the end of the summer reading party on August 7, 2010, 1:00 - 3:00 p.m.

Here are some suggestions:

Seashore

Portuguese man-of-war
Albatros
Great White Shark
Flying Fish
Flying Squid
Spinner Dolphin
Hermit Crab
Starfish

Sunlit Zone

Mackerel
Krill
Sailfish
Bluefin Tuna
Mola Mola
Green Sea Turtle
Manta Ray
Whale Shark
Compass Jellyfish
Girdle of Venus Comb Jelly
Bottlenose Dolphin
Flying Fish
Portuguese Man-of-War

Twilight Zone

Nautilus
Goblin Shark
Snipe Eel
Oarfish
Vampire Squid
Hatchet Fish
Siphonophore
Squid

Dark Zone

Pram Bug
Pelican Eel
Deep-Sea Jellyfish
Arrow Worm
Deep-Sea Lizardfish
Deep-Sea Shrimp
Hairy Anglers
Loosejaw Stoplight Fish
Fangtooth
Black Swallower
Sperm Whale
Giant Squid
Deep-Sea Comb Jelly

Abysal Plain

Sea Lily
Swimming Sea Cucumber
Hagfish
Tripod Fish
Sea Spider
Prawn
Sea Urchin

Hydrothermal Vents

Vent Octopus
Eelpout
Giant Tube Worms
Mussels
Vent Crab
Lobster

Deep Ocean Trench

Brotulid
Sea Anemone
Sea Cucumber
Polychaete Worm
Flatfish
