Project Description

This project addresses improvements to Bannerman Road from Meridian Road to Thomasville Road that will enhance motorist safety when using the road. The full extent of enhancements will be identified during design review of existing conditions based on design survey information. At a minimum the project will include lane widening, shoulder pavement, associated stormwater facilities, upgrades to signage and pavement markings, improvements to side road connections and improvements to intersections, including a permanent signalization system at the Bannerman / Bull Headley Road intersection to replace the existing temporary signal.

Legislative / Policy Compliance Statement

This project was approved by the Board at a January 17, 1995 transportation workshop, and is based on County project needs identified in the 2010 Long Range Transportation Plan.
