## Introduction

### Capital Improvement Program

The capital improvement program is a resource that helps Leon County government to ensure that decisions on projects and funding are made wisely and in a well planned manner. The quality of life for a Leon County resident depends on the reliability of transportation, the quality of stormwater system, the efficiency of waste disposal, the accessibility of culture and recreation, and many other essential public services.

High quality service levels can be achieved through the proper planning and provision of the replacement, maintenance and enhancement of the County's capital assets. In accordance with Florida Statute Chapter 125.74(d), the County Administrator is annually responsible to prepare and submit a capital budget and capital improvement program to the Board.

### Capital Assets

A capital asset is a new or rehabilitated physical asset that is nonrecurring and has a useful life of more than three years and costs at least \$15,000.

### Capital Project

A capital project is undertaken to acquire a capital asset. Examples include the construction, maintenance, and/or renovations to public buildings as well as improvements to stormwater systems and transportation.

### Capital Improvement Program

Capital infrastructure is essential to the Leon County community. Leon County's capital improvement program is a multi-year program that identifies capital projects to be funded during a five year period. It specifies each capital project to be undertaken, the year it will begin, the anticipated expenses for each year and the method of financing.

Projects and financing sources in the capital improvement program for years other than the current budget year (commonly called "out-years" or "planned years") are not authorized until the annual budget for those years is legally adopted. The out-years serve only as a guide for future planning and are subject to further review and modification.

### Annual Capital Budget

The annual capital budget represents the first year of a capital improvement program. It is the appropriation of capital spending legally adopted by the Board. The annual capital budget is adopted in conjunction with Leon County's annual operating budget and provides legal authority to proceed with specific projects.

### Capital Improvement Program

#### Preparation

Each fiscal year, the Office of Management and Budget facilitates the preparation of a capital improvement program. Officials, administrators, and staff of Leon County government all assist in this process. The preparation process includes the following:

- I. Assessment of Capital Needs  
(*Department/Division Staff*)
  - Prepare an inventory
  - Evaluate whether to repair or replace facilities and/or equipment
  - Identify future needs
- II. Identification of Capital Projects  
(*Commission, Administration, Department/Division Staff*)
  - Review status of current projects
  - Develop information for new projects
  - Submit project requests
- III. Financial Analysis  
(*Administration and OMB*)
  - Evaluate financial conditions
  - Forecast financial trends
  - Evaluate funding options
- IV. Evaluation & Planning of Capital Projects  
(*Administration and OMB*)
  - Review and prioritize project requests
  - Select projects and project schedules
  - Determine project funding sources
- V. Adoption of Capital Improvement Program & Annual Capital Budget  
(*Commission, Administration, and OMB*)
  - Prepare and submit tentative program and budget to Commission
  - Hold public hearings
  - Revise and prepare final program and budget for adoption
- VI. Implementation & Monitoring of Annual Capital Budget
  - October 1 through September 30

## Document Overview

The following is a brief description of the information contained in the Capital Improvement Program. A Project Index can be found in the first section of the Capital Improvement Section.

### Summary

This section contains information, analysis and summaries about Leon County's capital improvement program and capital budget.

- Introduction:  
General capital improvement program and capital budget preparation information.
- Capital Improvement Program Analysis:  
Brief analysis of the FY11-FY15 capital improvement program.
- Capital Projects By Managing Department:  
Summary table of all capital improvement projects organized by managing department.
- FY11 Anticipated Carryforward Projects:  
Summary table of all capital improvement projects that are anticipated to be carryforward from one fiscal year into the next.
- Operating Budget Impacts:  
General description and summary table of estimated impacts capital projects are anticipated to have on the operating budget.

### Capital Project Sections

Each section represents the service type of the capital projects it contains. Included in each section is an overview with a brief analysis, an index of the projects and a detail sheet for any project with planned activity in any fiscal year from FY12 to FY16. The project detail sheets each provide the following:

- General Information:  
Includes project title, managing department, project number, service type, project status, description/justification and, if applicable, project location map.
- Policy/Comprehensive Plan Information  
Non-comprehensive Plan Related Projects - relevant policy, law, mandate, ordinance, master plan, initiative, etc.
- Comprehensive Plan Related Projects:  
Identifies whether the project is in the capital improvement element of the comprehensive plan, the improvement (i.e. stormwater, parks & rec, roads, etc.), level of service standard for the improvement, current level of service, level of service upon completion of the improvement, etc.
- Financial Information:  
Includes funding sources, past expenditures through FY10, FY11 adjusted budget and FY11 year to date expenditures, FY12 budget, FY13 - FY16 planned budget, FY12 – FY16 total, total project cost, and estimates of any anticipated impacts on the operating budget.

## Capital Improvement Program Analysis

### FY 2012 Capital Budget

Figure 15.1 shows the capital funding for each fiscal year from FY05 through FY12. The total FY12 capital budget is **\$35,568,225 (\$22,626,879 in capital projects and \$12,941,346 in budgeted reserves)**. Including the budgeted reserves, this is a 12.56% decrease over the adopted FY11 capital budget of \$40,676,293. The decline in capital funding reflects the utilization of capital reserves set aside by the Board to fund the long term capital needs of the County. In addition, the figure below illustrates that the Capital Improvement Program is approaching FY 2007 funding levels.

The capital projects planned for FY12 include: payment to the City of Tallahassee for improvements to Gaines Street, Transportation and Stormwater Improvements, General County Maintenance, Main Library Bathroom Renovations, and Management Information Service upgrades.

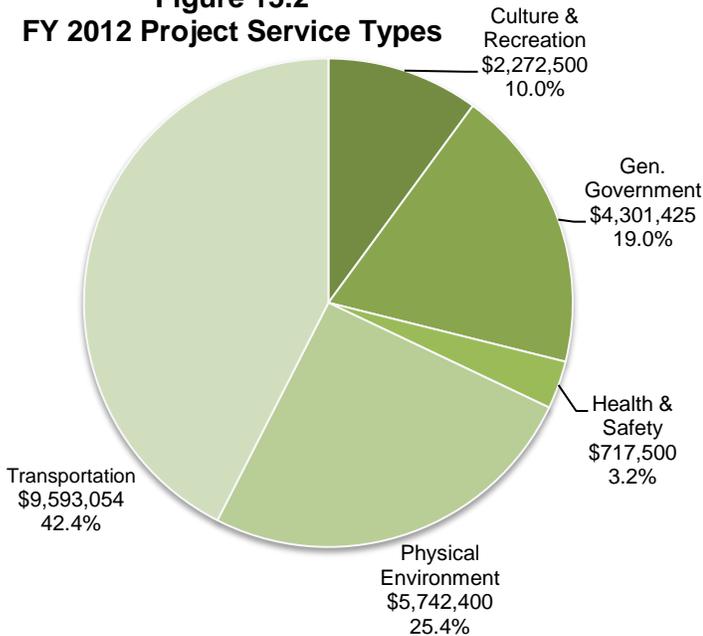

**Figure 15.1**  
**FY05 – FY12 Capital Funding**

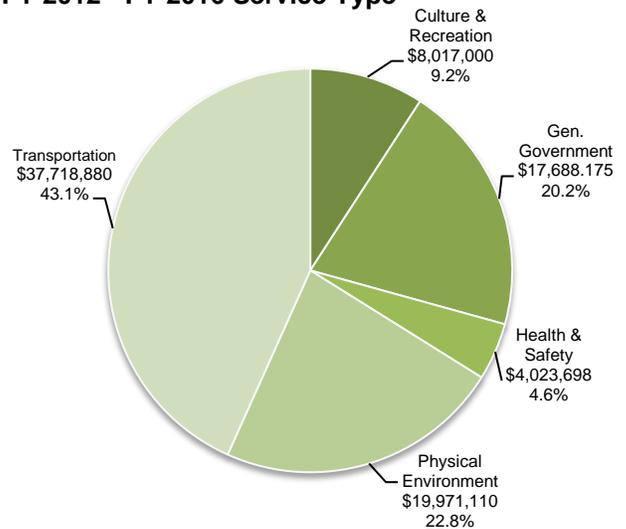

### Service Types

Figure 15.2 shows the service types of the projects in the FY12 capital budget. In FY12, 42.4% or \$9,593,054 of the capital budget will fund transportation related projects. Figure 15.3 shows the service types of the projects in the FY12-FY16 Capital Improvement Program. The Capital Improvement Program continues to spend the majority of funds on transportation projects. The budgeted reserves are not reflected below.

**Figure 15.2**  
**FY 2012 Project Service Types**

**Figure 15.3**  
**FY 2012 - FY 2016 Service Type**

## Capital Improvement Program Analysis

### Project Funding Sources

Table 15.1 shows the project funding sources for the FY12 capital budget and the FY12-FY16 capital improvement program. The Capital Improvements Fund (Fund 305) is the primary source of funding for the FY12 capital budget. Fund 305 will fund \$7,784,700 or 34.4% of the total FY12 capital budget. In the FY12-FY16 capital improvement program, the Capital Improvements Fund (Fund 305) continues as the primary source of funding. It will fund \$32,498,497 or 37.2% of the total FY12-FY16 program. The budgeted reserves are not reflected below.

**Table 15.1  
FY12- FY16 Project Funding Sources**

Funding Source	FY 2012 Budget	%	FY 2012 - FY 2016 Program	%
Grants (Fund 125)	80,000	0.4%	400,000	0.5%
EMS MSTU (Fund 135)	637,500	2.8%	3,623,698	4.1%
Bank of America (Fund 165)	690,125	3.1%	2,356,080	2.7%
Capital Improvements (Fund 305)	7,784,700	34.4%	32,498,497	37.2%
Transportation Improvements (Fund 306)	787,700	3.5%	5,449,039	6.2%
Sales Tax (Fund 308)	5,450,000	24.1%	22,088,515	25.3%
Sales Tax Ext. (Fund 309)	5,476,854	24.2%	13,502,826	15.4%
Bond Series 2003A (Fund 311)	65,000	0.3%	65,000	0.1%
Bond Series 1999 (Fund 318)	272,500	1.2%	275,500	0.3%
Solid Waste (Fund 401)	1,382,500	6.1%	7,162,708	8.2%
<b>TOTAL</b>	<b>\$22,626,879</b>	<b>100%</b>	<b>\$87,418,863</b>	<b>100%</b>

### Reserves for Capital Projects

The FY12 capital budget includes a series of dedicated reserves for future projects: General Government (\$5.54 million) and Intersection/Resurfacing (\$7.28 million).

General Government: As part of the annual budget process, the County evaluates the resources necessary to support the five year capital improvement program. Depending upon the level of reserves, additional general revenue is contemplated to be transferred to the capital projects to maintain a five year funded program. This approach began during the FY08 budget process to support the funding of maintenance and essential capital projects. The goal is to provide funding to maintain the existing infrastructure of the County. Through this effort, the County is able to avoid large increases/decreases in funding over the five year period. The out-year budgets reflect the capital reserves being depleted by FY14.

Intersection/Resurfacing: During the FY08 budget process, the County established this reserve account to support intersection and resurfacing projects for the next six to eight years. The funds are restricted by law to be used for transportation projects or the jail. With the decline in gas tax revenues, the need to have this resource for maintaining the existing infrastructure has become critical. The out-year budgets reflect the capital reserves being depleted by FY15. Beginning in FY14, the Capital Improvement Budget contemplates using the Sales Tax Extension (Fund 309) to fund resurfacing and intersection improvements projects.

## Capital Improvement Program Analysis

### New and Revised Capital Projects

Table 15.2 shows the new and revised projects for FY12 capital budget and FY12-FY16 capital improvement program. A total of 6 projects in the amount of \$968,500 will be funded in FY12. For the five year period of a total of \$2,741,438 is budgeted for 8 new and revised projects.

**Table 15.2  
FY12 - FY16 New and Revised Projects**

New and Revised Projects	FY12 Budget	%	FY12 - FY16 Program	%
Library Services Technology	34,000	3.5%	61,000	2.2%
Fort Braden Community Park	-	0.0%	65,000	2.4%

Rural/Hazardous Waste Heavy Equipment and Vehicle Replacement	32,500	3.4%	389,438	14.2%
Stormwater Structure Inventory and Mapping	500,000	51.6%	1,000,000	36.5%
<b>Total</b>	<b>\$968,500</b>	<b>100.0%</b>	<b>\$2,741,438</b>	<b>100.0%</b>

### Management of Capital Projects

Table 15.3 shows the managing departments of the FY12 capital budget and FY12-FY16 capital improvement program. A total of 65 projects will be funded in FY12 Capital Improvement Program. Engineering Services will manage 52.9% of these projects totaling \$11,948,854. The budgeted reserves and carryforward projects are not reflected below.

**Table 15.3  
FY12 - FY16 Managing Departments**

Managing Department	FY12 Number of Projects	FY12	%	FY12 - FY16 Program	%
Emergency Medical Services	2	665,000	2.9%	1,588,000	1.8%
Engineering Services	14	11,948,854	52.8%	37,414,826	42.8%
Facilities Management	11	2,385,025	10.5%	5,758,980	6.6%
Fleet Management	4	1,441,300	6.4%	14,289,214	16.3%

The Capital Improvement projects highlighted are fully funded in FY11. It is anticipated that these projects will be carryforward into the next fiscal year. These projects are listed under FY11 Anticipated Carryforward Projects. These projects are not included in the Management of Capital Projects Table 15.3.

## FY11 Anticipated Carryforward Projects

Table 15.4 is a schedule of the anticipated FY11 carryforward projects. All projects are currently fully funded. It is anticipated that the funding for these projects will be carryforward from Fiscal Year 2011 into Fiscal Year 2012 in order to complete the project.

## Operating Budget Impact

The following is a general description of some of the impacts that different types of projects can have on the operating budget.

### Facilities

The construction or acquisition of a new facility increases the square footage that the County is required to maintain. This increase results in additional expenses including utilities, maintenance and custodial contracts, and repairs. New community centers and libraries are typically service enhancements and also require additional staffing, operating supplies, library materials and machinery and equipment. A new facility may also involve the cancellation of a lease on an existing facility to help offset the increased costs.

Renovations or upgrades to an existing facility are often completed in order to improve efficiency and avoid total replacement. An increase in efficiency often results in a reallocation of staff time and a decrease in costs such as maintenance, utilities and repairs.

### Parks/Greenways & Trails

The development of a new park or greenway and trail space increases the acreage that the County is required to maintain. This increase results in additional expenses including maintenance staff, maintenance vehicles and equipment, operating supplies and utilities.

### Roadways

The improvement of roadways generally requires ongoing maintenance costs such as pothole patching, lane and crosswalk re-stripping, sign and traffic signal replacement, and roadside right-of-way mowing and maintenance.

### Stormwater

The improvements of existing stormwater ponds or drainage systems and construction of new ponds or drainage systems are often completed to correct a deficiency. These corrections typically result in decreases in maintenance and repair costs.

### Technology

The implementation of new technology often requires an increase for maintenance contracts once the warranty period has expired. Upgrades to existing technology do not usually have any additional costs. The upgrades can result in a decrease in maintenance costs and a reallocation of staff time due to the increased efficiency.

### Vehicles/Equipment

The purchase of a new vehicle or piece of equipment results in additional expenses including vehicle coverage, preventative maintenance, fuel and oil, and operating supplies. The purchase of a new vehicle or piece of equipment may also require additional staffing for operation. Replacement vehicles or equipment do not usually impact the operating budget.

**Leon County Government  
FY 2012/FY 2016 Capital Improvement Program**

## Operating Budget Impacts

Table 15.5 outlines the estimated impacts that some projects may have on the operating budget. Impacts are shown in the fiscal year in which they are anticipated to begin and the out years that will be affected by additional operating costs. The impacts shown in this table are only estimates and include projects that will reduce the operating budgets of some departments. These impact estimates are subject to change.

**Table 15.5 – Operating Budget Impacts by Project**

Project	#	FY 2012 Estimated	FY 2013 Estimated	FY 2014 Estimated	FY 2015 Estimated	FY 2016 Estimated

<b>Total Estimated Operating Budget Impacts</b>		<b>\$378,515</b>	<b>\$528,053</b>	<b>\$693,949</b>	<b>\$713,665</b>	<b>\$1,073,270</b>

Notes:

\*The upgrades to the elevator generators and file servers are anticipated to reduce the Facilities Management and Management Information Services Operating budget by \$20,000 each fiscal year by decreasing maintenance and utilities.

Table 15.6 outlines the estimated operating budget impacts by Department. Impacts are shown in the fiscal year in which they are anticipated to begin and the out years that will be affected by additional operating costs. The impacts shown in this table are only estimates and are subject to change. In addition, departments may share the operating impacts of one project. For example, Facilities Management is responsible for the utilities and maintenance of the libraries while the Library Department is responsible for personnel and operating supplies.

**Table 15.6 – Operating Budget Impacts by Department**

Department	FY 2012 Estimated	FY 2013 Estimated	FY 2014 Estimated	FY 2015 Estimated	FY 2016 Estimated

## Culture & Recreation

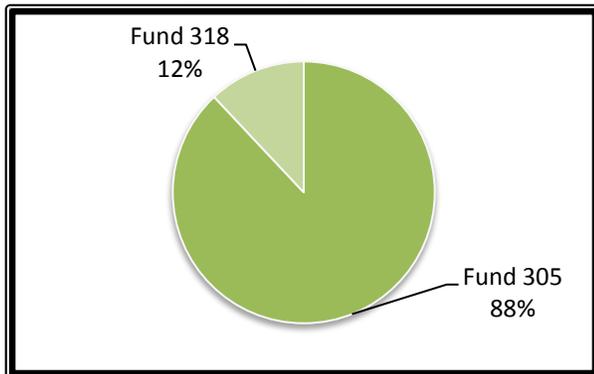

### Overview

The Culture and Recreation contains capital improvement projects designed to facilitate the provision, maintenance, and operation of culture and recreation facilities and activities. Major culture and recreation capital projects funded in FY12 include: Greenways and Parks Capital Maintenance, Playground Equipment Replacement, improvements to the Main Library, and the building a fence at Fred George Park.

### Funding Sources:

Figure 15.4 shows that 88% (\$2,000,000) of culture and recreation projects are funded in FY11 by the Capital Improvements Fund (Fund 305). The Bond Series 1999 Fund will fund 12% (\$272,500).

**Figure 15.4**  
**FY12 Culture & Recreation Projects**  
**By Funding Source**

### Managing Departments:

Table 15.7 shows that Parks & Recreation will manage 97% of the FY12 culture and recreation capital improvement projects or 10 projects for FY12. Facilities Management and Management Information Services will each manage one project accounting for 3.3% of the Culture and Recreation capital improvement projects.

**Table 15.7**  
**FY12 Culture & Recreation Projects**  
**By Managing Department**

Managing Department	# of Projects	FY11 Budget
Facilities Management	1	\$40,000
Management Information Services	1	\$34,000
Parks and Recreation	10	\$2,198,500
<b>Total</b>	<b>12</b>	<b>\$2,272,500</b>

### Operating Budget Impacts:

Table 15.8 shows the estimated impacts that some Culture and Recreation projects have on the operating budget. Impacts are shown in the fiscal year which they are anticipated to begin as well as the out-years that are affected by additional operating costs. These impacts are only estimates and are subject to change.

Service Type:	<b>Culture &amp; Recreation</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project - Carryforward</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for the construction of a branch library in the District 5 region of the County. The library will be located near Pedrick Pond off of Mahan. This will be a stand-alone branch and will replace the existing storefront location. The County will apply for a State grant to help offset the costs for construction of the Eastside Library. The project will be done consistent with the Climate Action Plan and will be Leadership in Energy and Environmental Design (LEED) certified.

**Financial Summary**

Leon County Code, Appendix C - Special Acts, Chapter 10 - Library  
 Florida Statutes, Chapter 257 - Public Libraries and State Archives  
 Florida Administrative Code, Chapter 1B-2 - State Aid to Libraries Grant Program

**Operating Budget Impact**

This project will have annual impacts on the Library Services and Facilities Management operating budgets once the library is in operation. Additional personnel expenses are not included; existing staff resources will be used to open the Eastside Library. The following are the estimated impacts anticipated to begin in FY 2012:

FY 2012 Library Services:

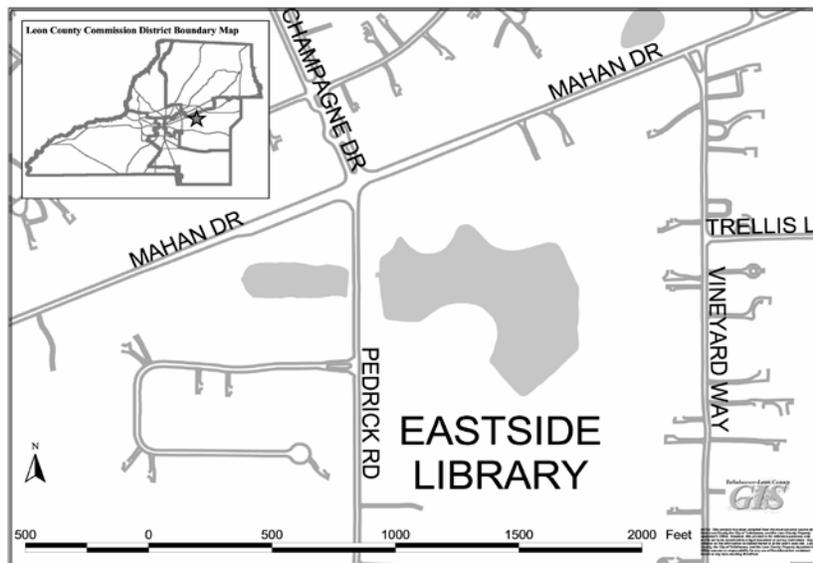

- \$60,000 Library Materials (reference materials, fiction and nonfiction in all media formats, and database subscriptions)
- \$10,892 Operating Costs (travel and training, repairs and maintenance, promotional activities, office supplies)

Total \$70,892

FY 2012 Facilities Management:

- \$33,975 Security, Custodial, Grounds, and Repairs and Maintenance
- \$48,265 Utilities
- \$150,962 Reduction in Leases for the Apalachee Store Front Branch Library

Total -\$68,722

Status: <b>New Project</b>	Current Level of Service: <b>N/A</b>

**Project Description/Justification**

This project is for a 12 foot addition to the restroom/concession stand at the Fort Braden Community Park. This addition is needed for the secure storage of equipment such as mowers, utility vehicle, and field groomers. Currently, the equipment is hauled back and forth from the Miccosukee Complex each time it is needed at the site. This addition will also provide a space for storage of Concession supplies in a secure area.

**Project Description/Justification**

This project is for the construction of the shop complex at the J.R. Alford Greenway. This facility will store all equipment for all the Greenways managed by Parks and Recreation.

This phase of this project is for the design and construction of a storage/shop building complex. This complex will consist of a shop with an office, restrooms, equipment storage, and tool storage area, truck/tractor storage sheds, and a fuelling station. This structure will provide a secure area to store the tools and equipment needed for the Greenways as well as provide shelter and office space for employees.

**Project Description/Justification**

This project is for the renovation and expansion of a branch library in the Lake Jackson community. During the June 9, 2009 budget workshops, the Board approved the purchase of the Huntington Oaks Shopping Plaza, which the County formally leased space for the branch library. The library will be renovated and expanded in order to provide additional meeting space and library materials. Leon County is the recipient of a state grant in the amount of \$500,000 for the construction of this library.

Status:	<b>New Project</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for technology improvements for Library Services.

Funding in FY 2012 is for the "Print to Pay" hardware and software. The "Print to Pay" program controls and charges for printing by library users who print from public-access computers. The software helps the user decide what pages should be printed, calculates costs, displays options for payment and releases the print job to a central printing station, where the user approves the print job. The hardware consists of coin and bill acceptors so that library users may pay with cash. They may also pay by credit card. The system is flexible and allows the Library to set fees for printing and/or offer free copies and then start charging at a certain limit (10-12 pages, for example). It is anticipated that this system will be implemented on January 1, 2012.

Funding in FY 2013 is for an update of the Vocera devices. Each library employee has Vocera device, which provides a remote telephone service that is integrated with the County's Avaya phone system. Library staff can be located any where in the building and receive calls going to their desks. This allows staff to be on the floor assisting patrons, working in the books stacks, and working away from their desks.

**New Vehicles and Equipment for Parks/Greenways**

Dept/Div:	<b>Parks &amp; Recreation</b>	Comp Plan CIE Project:	<b>N/A</b>
Project #:	<b>046007</b>	Capital Improvement:	<b>N/A</b>
Service Type:	<b>Culture &amp; Recreation</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Revised Project</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for new vehicles and equipment for the Parks and Greenways. The Parks and Greenways program has grown dramatically in recent years. In the past five years, the County has acquired a total of 1,491.27 acres: 321.6 acres for public for use and 1,169.67 acres in green space that has not been open to the public (St. Marks Greenway, Fred George Greenway, and Fallschase).

The FY12 request is for the purchase of one 165 PTO horse power tractor and a new vehicle for the greenways. In the past year, the greenways crew has relied on equipment on loan from other divisions to complete the work required. A second large tractor allows grass mowing with two tractors pulling 20' mowers in less time. The new vehicle for the greenways will be 'pool' vehicle available for use by the greenways attendants and will eliminate the need for the usage of their personal vehicles. In addition, three new vehicles, one zero turn mower, and one small utility vehicle will be purchase for additional parks and community center attendants.

The FY16 request is for a mini excavator. The Greenways crew has been renting one of these each year for the past three years to perform trail maintenance and clearing of debris. The purchase of the excavator will allow for additional maintenance on the trails as well as other jobs (stump removal, ditch work, and irrigation repairs) that are not currently being performed to due the limited rental time.

**Project Description/Justification**

This project is for the construction of recreational facilities in the Okeehoopkee Prairie Park. The Florida Water Management District has completed a large storm water pond at this location that offers the opportunity for a recreational/educational trail in accordance with a grant agreement with the Florida Communities Trust program.

This project will be completed in three phases. The first phase is funding for the design and permitting fees. The second phase is for the parking lot, boat ramp renovations, and the trail around the pond. The final phase will include playground equipment, picnic shelter, signage, and walking trail.

**Project Description/Justification**

This project is for the replacement of playground equipment within the Leon County Parks and Recreation program. In addition, this project will also establish new play areas within the parks system. Previously, playground equipment replacement and additions were budgeted within individual park capital improvement projects. Playground equipment generally has a life span of 15 years unless safety regulations change or unexpected damage occurs. This replacement program will include the purchase, installation, and rubber safety surface under the equipment. All playground equipment in county parks is inspected several times a year by licensed playground inspectors to ensure safety requirements are being met.

Service Type:	<b>Culture &amp; Recreation</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Revised Project</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for the replacement of the restroom and concession stands at J. Lewis Hall, Sr., Woodville Park and Recreation Complex. The existing restroom/concession was built in 1997 and since then three additional fields have been added. The additional fields have placed an increased demand on restrooms and concession beyond what was originally programmed for this facility. Currently, Port-a-Lets are being rented in order to meet restroom demands.

To meet the needs and use requirements for this area, a building the size of the building built at the Apalachee Regional Park will be needed at this area. To reduce the operational cost, the new building should be built as energy efficient as possible. Items such as a collection device to capture the rain water off the roof for irrigation of plants around the building, and solar panels on the roof to reduce utility costs will be considered.

**Financial Summary**

Parks & Recreation Master Plan (May 1997)  
Parks & Recreation Element of the Comprehensive Plan, Policy, 1.1.3

**Operating Budget Impact**

This project will have an annual impact on the Parks and Recreation operating budget. The following are the estimated impacts anticipated to begin in FY 2016.

FY 2016  
\$4,000 Utility Services  
\$2,000 Operating Supplies

Total \$6,000

## General Government

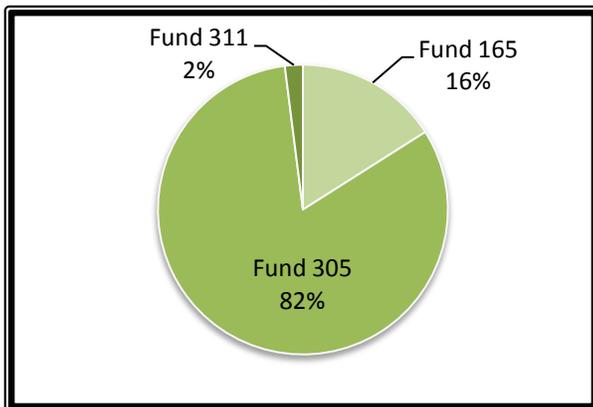

### Overview

The General Government Section contains capital improvement projects designed to facilitate the provision of services by the legislative and administrative branches of Leon County government. Major General Government Capital Projects funded in FY12 include: General County Maintenance, Main Library Bathroom Renovations, and Management Information Service upgrades.

### Funding Sources:

Figure 15.5 shows that 82% (\$3,551,300) of General Government projects are funded in FY12 by the Capital Improvements Fund (Fund 305). The Bank of America Fund is funding 16% (\$690,125) of General Government Projects for the improvement of that facility. The Bond Series 2003A and 2008B Construction Fund is funding 2% (\$65,000) of the General Government Projects in FY11.

**Figure 15.5**  
**FY12 General Government Projects**  
**By Funding Source**

### Managing Departments:

Table 15.9 shows that Management Information Services will manage the majority of the FY12 general government capital improvement projects. Management Information Services will manage 54% of the total General Government budget for FY12. Facilities Management will manage 38%, Fleet Management will manage 4%, and the Supervisor of Elections will manage 4%.

**Table 15.9**  
**FY12 General Government Projects**  
**By Managing Department**

Managing Department	# of Projects	FY11 Budget
Facilities Management	10	\$2,345,025
Fleet Management	1	\$242,400
Management Information Services	14	\$1,689,000
Supervisor of Elections	1	\$25,000
<b>Total</b>	<b>26</b>	<b>\$4,301,425</b>

### Operating Budget Impacts:

Table 15.10 shows the estimated impacts that some General Government projects have on the operating budget. Impacts are shown in the fiscal year which they are anticipated to begin as well as the out-years that are affected by additional operating costs. These impacts are only estimates and are subject to change.

Service Type:	<b>General Government</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for architectural and engineering services that occur routinely throughout the year and are necessary to insure the safety and consistency of operations in County buildings. Routine operating maintenance of County buildings occasionally involves the discovery of structural deterioration and mechanical or electrical failures that warrant an immediate investigative action and proposed course to solution.

Service Type:	<b>General Government</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for the replacement of election equipment. In 1992, the current optical scan voting system was first purchased. Over the past 16 years, the units have been upgraded and repaired; however the equipment has reached its maximum use and needs to be replaced. The current OS technology is being phased out and will not be available after 2010. The replacement technology, OSX, allows for higher reading capacity which is needed for large precincts, absentee ballot counting and early voting. In FY 2013, the replacement units for the touch screens with ADA compliant ballot marking devices will be purchased in order to meet the deadline mandated by statute.

 Level of Service Standard: **N/A**  
 Current Level of Service: **N/A**

**Project Description/Justification**

This project is for the modernization of elevator generator motors and accompanying electric drive systems. An average of three elevators a year will be modernized. Emergency replacement costs are very high and the down-time for repair affects the buildings. The current generator motors and drive systems are large alternating current systems that run 24 hours a day and 7 days a week. These units are no longer manufactured or marketed by the elevator companies. The new technology is a variable frequency direct current system, which is more efficient and operates only on demand. The elevators are located at the Main Library, Courthouse, and the Bank of America Building.

Service Type:	<b>General Government</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for the replacement of file servers for planned obsolescence and standardization. Consolidation and upgrading of servers is an ongoing process to sustain desktop and communication functionalities and specialized applications for County staff and services. Upgrading of servers improves performance and reliability of systems and backup solutions. In addition, a virtualization solution for file servers will be used to improve support of applications, test environments, and maintenance, as previously described. The virtualization will minimize space requirements and cut energy costs in the data center, maximize technical staff resources, and provide for disaster recovery and business continuity of services.

**Policy/Comprehensive Plan Information**

N/A

**Operating Budget Impact**

This project produces an annual energy costs savings of approximately \$10,000 in electrical and air conditioning expenses. These energy savings in the data center were achieved by replacing nearly 250 servers with eight enterprise system servers that utilize virtualization and Storage Area Network (SAN) technology. These technologies provide on demand computing services through shared resources.

**Policy/Comprehensive Plan Information**

Geographic Information System City of Tallahassee/Leon County Interlocal Agreement (1990)

The Comprehensive Plan mandates that a series of map layers be compiled and maintained for use in Comprehensive Plan implementation.

The environmental component of both the City and County land development ordinances contain clauses mandating that protected natural features be mapped pursuant to applications for development.

The Florida Department of Revenue requires that all property appraisers' offices in the State of Florida compile and maintain digital Cadastres that meet specific guidelines governing methodologies to be used and the layers to be compiled. Required layers include platted lots, tax parcels, rights-of-way and legal dimensions.

**Geographic Information Systems Incremental Basemap Update**

Dept/Div:	<b>Management Information Services</b>	Comp Plan CIE Project:	<b>N/A</b>
Project #:	<b>076060</b>	Capital Improvement:	<b>N/A</b>
Service Type:	<b>General Government</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for the incremental update of the Tallahassee-Leon County Geographic Information System, TLC GIS, basemap. The basemap includes orthophotography, planimetrics and a digital elevation model with contours. These elements are essential in providing timely and accurate basemap information which provides positional control for other critical Geographic Information System information and the analysis opportunities they support. They are the foundation for geo-referencing (tying to coincident geographic features for accurate and reliable referencing) many of the Geographic Information System data layers. In June 2008 the Florida Department of Revenue, FDOR, was directed under Chapter 195.002 Florida Statutes, to provide each County Property Appraiser's Office with digital orthophotography every three years and charge each county office for the cost of that service and product delivery. In working with the vendor and leveraging the latest technology, TLC GIS was successful in developing a new methodology for collecting, compiling and releasing the basemap data in compliance with Chapter 195.002 Florida Statutes. TLC GIS has also been requested to obtain additional oblique and satellite imagery to support efforts related to public safety, property assessment and non ad-valorem assessments. Based on these needs, the Leon County Property Appraiser's Office and the Leon County Sheriff's Office has agreed to provide additional funding (\$20,000 per agency, per year) to secure oblique imagery and satellite imagery for Leon County (oblique imagery in Year 2 and satellite in Year 3)

Year 1 - Complete Data Capture and Delivery of 6" Digital Orthophotography  
 \*Complete Data Capture and Delivery of Color Infrared Orthophotography CIR  
 Complete Data Capture of LiDAR

Year 2 & 3 - Complete LiDAR processing  
 Complete Planimetric Update  
 \*\*Complete Data Capture and Delivery Obliques in Year 2  
 \*\*Complete Data Capture and Delivery of Satellite Imagery in Year 3

\*Note: The color infrared (CIR) photography is an additional product that is provided under the plan. The CIR will support efforts such as wetland delineation.

\*\*Note: In order to provide complete data capture and delivery obliques in Year 2 and complete data capture and delivery of satellite imagery in Year 3 funding for this CIP will need to increase from \$258,500 to \$298,500 per year (See Note Above)

In order to maintain the basemap, Tallahassee-Leon County GIS will be required to secure funding beyond Year 3. The continued funding will allow TLC GIS to enter into the second cycle of data capture without an increase in the annual funding amount. The City is also contributing funds to this project.

**Project Description/Justification**

This project provides matching grant funds for the American Recovery and Reinvestment Act (ARRA) of 2009. The County has been actively monitoring the ARRA, as well as coordinating with regional partners to identify possible projects for funding consideration. On April 21, 2009, the Board accepted a status report on the ARRA, including funding for additional lobbying efforts to gain grant funding.

Subsequently, this project was amended during the June 22, 2010 budget workshop to fund capital projects such as Transportation and Stormwater Improvements and equipment for the Public Works Department. Currently, \$755,000 is appropriated to strengthen the County's position when trying to leverage state and federal funds.

**Project Description/Justification**

This project is for the continual maintenance and upgrading of the network connectivity of County offices to provide uninterrupted service with high speed and increased bandwidth to support existing and growing applications requiring graphics and document images. Redundant links to critical offices will continue to be implemented each year to prepare for disaster recovery and business continuity needs. Included are the following costs: \$80,000 Replacements of Network Devices.

Service Type:	<b>General Government</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for the development of a records management strategy and implementation plan for information storage, management, and discovery throughout the departments of the Leon County Board. Information will include all paper, microfilm, and electronically stored items such as emails, video, digital photos, maps, databases. This project will also define the technical requirements for supporting the strategy and implementation plan within the existing Documentum solution. A process framework will be based on Florida statutes and developed to define 1) how and when to organize and store information, 2) how to comply with the Florida retention schedule for information, 3) how to destroy information, and 4) how to access information. Another outcome of the project is to define the software and hardware for an archiving solution for emails and other documents. As paper and electronic documents and processes are the integral to the work of the County government, management of those documents and processes are critical to the success of the government.

**Financial Summary**

Service Type:	<b>General Government</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project - Carryforward</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is to decrease greenhouse gas emissions from Leon County operations, consistent with the County's greenhouse gas emissions reduction target, Climate Action Plan, and resolution to achieve the five Cities for Climate Protection milestones. Specific work performed under this project will be consistent with criteria included in the Climate Action Plan. The plan focuses on strategies which decrease energy demand, increase energy efficiency, switch to renewable energy and vehicle fuel, reduce miles traveled, and reduce solid waste through increased reuse and recycling. Surveys, audits and studies will be conducted to identify areas with the highest opportunity for energy savings and greenhouse gas reduction. Many of the greenhouse gas reduction measures will result in reduced energy use, with initial funding recovered through reduced life cycle operating costs.

Service Type:	<b>General Government</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for the replacement of old user computers, printers, and peripherals. A replacement schedule is extremely important due to advances in software, deterioration of hardware, the inability to obtain replacement parts for old equipment and the increased cost of maintenance of old equipment. Currently, computers are on a five year replacement cycle plan. However, users with specialty software needs, such as engineers and GIS staff, are in a three year replacement cycle. The computers that are replaced every three years are recycled to County users with standardized needs. All older machines are recycled to the Goodwill's electronics store. A virtualized desktop solution is being deployed for Board users over a 4 year plan, which will prolong the life of the desktop to over 5 years.

## Health and Safety

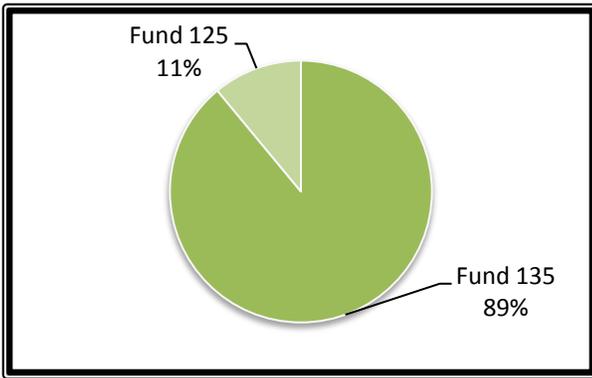

### Overview

The Health and Safety Section contains capital improvement projects designed to facilitate the provision of services by the legislative and administrative branches of Leon County government. Major Health and Safety Capital Projects funded in FY12 include: Emergency Medical equipment, technology, and ambulances.

### Funding Sources:

Figure 15.6 shows that the Emergency Medical Services MSTU Fund (Fund 135) funds 89% (\$637,500) and the Grants Fund (Fund 125) funds 11% (\$80,000).

**Figure 15.6**  
**FY12 Health and Safety Projects**  
**By Funding Source**

### Managing Departments:

Table 15.11 shows that Emergency Medical Services will manage the majority of the FY12 Health and Safety capital improvement projects. Emergency Medical Services will manage 9.7% of the total health and safety budget for FY11. Fleet Management will manage 64.5%, Facilities will manage 24.7%, and Management Information Services will manage less than 1.1%.

**Table 15.11**  
**FY12 Health and Safety Projects**  
**By Managing Department**

Managing Department	# of Projects	FY11 Budget
Emergency Medical Services	3	\$665,000
Management Information Services	1	\$52,500
<b>Total</b>	<b>4</b>	<b>\$717,500</b>

### Operating Budget Impacts:

Table 15.12 shows the estimated impacts that some Health and Safety projects have on the operating budget. Impacts are shown in the fiscal year which they are anticipated to begin as well as the out-years that are affected by additional operating costs. These impacts are only estimates and are subject to change.

**Table 15.12**  
**Health and Safety Operating Budget Impacts**

Project	Project #	FY12 Estimate	FY13 Estimate	FY14 Estimate	FY15 Estimate	FY16 Estimate

The Capital Improvement projects highlighted are fully funded in FY11. It is anticipated that these projects will be carryforward into the next fiscal year.

**Leon County**  
**FY 2012/FY 2016 Capital Improvement Program**

**Additional Ambulance & Equipment**

Dept/Div:	<b>Miscellaneous</b>	Comp Plan CIE Project:	<b>N/A</b>
Project #:	<b>096013</b>	Capital Improvement:	<b>N/A</b>
Service Type:	<b>Health &amp; Safety</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for the purchase of additional medium duty ambulances and the associated equipment. The purchase of additional ambulances is needed in order to increase the level of service associated with the rise of emergency response calls and patient transports. In FY12 and FY13, an additional three new ambulances will be purchased each year to increase the fleet size to 26 ambulances. Currently, the EMS Division has 20 ambulances and deploys 19 different shifts through out the day with 14 ambulances being deployed simultaneously during peak coverage times. This results in ambulances being deployed for 24-hours straight which causes increased maintenance requirements and costs. The purchase of these additional ambulances is necessary to assure availability of deployable ambulances to meet the demand in services.

**Project Description/Justification**

This project is for the purchase of new and replacement Emergency Medical Services equipment. Included in this project is personal protective equipment for EMS personnel, automated external defibrillators, replacement splinting and patient moving devices such as stretchers and special operations/mass casualty preparedness equipment. This project is funded by a Florida Department of Health grant.

**Project Description/Justification**

This project is for the construction of a permanent Emergency Medical Services facility. The facility will be a co-located with the Fire Administration Buildings according to the Interlocal Agreement between Leon County and the City of Tallahassee for the functional consolidation of EMS and Fire Services. The facility will be part of the Public Safety Complex that will house the Joint Dispatch Center, Traffic Management Center, and Emergency Operations Center. Critical functions of this building will be constructed to resist weather related disasters and include a protected ambulance storage facility.

**Project Description/Justification**

This project is for the replacement of Emergency Medical Services vehicles and equipment. The County has a seven year replacement schedule for every ambulance, which is based on anticipated mileage of the vehicle. Due to this replacement schedule the County will not be replacing ambulances in FY 2012 and FY 2013. Instead an additional three ambulances will be purchase to increase the overall ambulance fleet size to 26 ambulances. Currently, the EMS Division has 20 ambulances and deploys 19 different shifts through out the day with 14 ambulances being deployed simultaneously during peak coverage times. This results in ambulances being deployed for 24-hours straight which causes increased maintenance requirements and costs. The purchase of these additional ambulances is necessary to assure availability of deployable ambulances to meet the demand in services.

**Project Description/Justification**

This project is for the construction of a Leon County, City of Tallahassee, and Leon County Sheriff's Office Public Safety Complex. The establishment of a Public Safety Communication Board (PSCB) was approved by the County Commission on April 25, 2006 and by the City Commission on April 26, 2006.

Leon County, City of Tallahassee, and Leon County Sheriff's Office have agreed to pursue the public safety communication project and are moving forward with the consolidation of dispatching law enforcement and emergency personnel. A facility will be constructed that will include the dispatch services for the Leon County Sheriff's Office, the Tallahassee Police Department, Leon County Emergency Medical Services, and the Tallahassee Fire Department. The dispatch services will be co located in the Public Safety Complex with the City of Tallahassee Transportation Management Center, Emergency Medical Services and Fire Administration, and Leon County's Emergency Operations Center. Construction is scheduled to start in late FY11. The new American Red Cross building is located on the same property in order to create a campus environment.

# Physical Environment

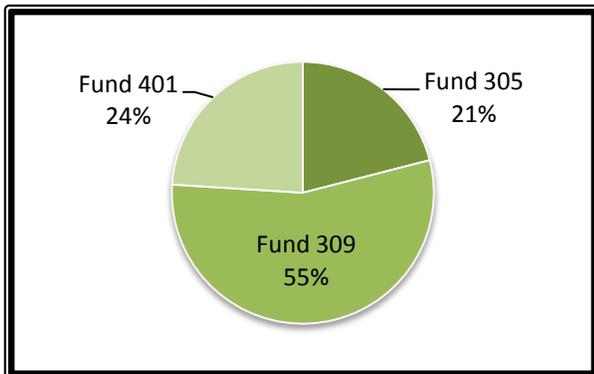

## Overview

The Physical Environment Section combines the previous Solid Waste and Stormwater Sections. This section contains capital improvement projects designed to facilitate the provision of services by the branches of Leon County government. Major Physical Environment Capital Projects funded in FY12 include: Gum Road Target Planning Area, Killlearn Acres Flood Mitigation, and machinery and equipment replacement for Solid Waste Management and Stormwater.

## Funding Sources:

Figure 15.7 shows that the Capital Improvement Fund (Fund 305) funds 21% (\$1,179,900) of the Physical Environment projects are funded in FY12. The Solid Waste Management Fund (Fund 401) funds 24% (\$1,382,500) and the Sales Tax Extension Fund (Fund 309) funds 55% (\$3,180,000).

**Figure 15.7**  
**FY12 Physical Environment Projects**  
**By Funding Source**

## Managing Departments:

Table 15.13 shows that Engineering Services will manage the majority of the FY12 Physical Environment capital improvement projects. Engineering Services will manage 65% of the total physical environment budget for FY12. Fleet Management will manage 9%, Public Works Operations will manage 2%, and Solid Waste will manage 24%.

**Table 15.13**  
**FY12 Physical Environment Projects**  
**By Managing Department**

Managing Department	# of Projects	FY12 Budget
Engineering Services	5	\$3,730,000
Fleet Management	1	\$509,900
Public Works Operations	1	\$120,000
Solid Waste	6	\$1,382,500
<b>Total</b>	<b>13</b>	<b>\$5,742,400</b>

## Operating Budget Impacts:

Table 15.14 shows the estimated impacts that some Physical Environment projects have on the operating budget. Impacts are shown in the fiscal year which they are anticipated to begin as well as the out-years that are affected by additional operating costs. These impacts are only estimates and are subject to change.

**Table 15.14**  
**Physical Environment Operating Budget Impacts**

Service Type:	<b>Physical Environment</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for the implementation of the \$5 million set aside from the Sales Tax Extension to retrofit existing County stormwater facilities and enhance their function. Funding is provided by the Blueprint 2000 Intergovernmental Agency from the 80% share of the Sales Tax Extension dedicated to the Agency. The following projects are included:

Lake Munson Dam Rehabilitation - This project addresses rehabilitation of the dam structure at an adjacent County owned location in order to address structural weaknesses and foundation instabilities at the existing dam that are currently being monitored. The rehabilitated dam will maintain the existing hydraulic conditions so that no change occurs in lake level or downstream discharge.

Sharer Road Outfall Stabilization - This project addresses the significant erosion of the outfall channel from Sharer Road to the Brandon Woods Pond. Unsafe conditions and lack of maintenance access will be addressed by concrete lining approximately 600 linear feet of the channel. The drainage easement has eroded to greater than 7 feet in portions of the channel. Steep sides and heavy tree growth limit access for maintenance and prevent use of standard stabilization methods.

Lake Heritage Outfall - This project addresses the replacement of the lake outfall structure to discharge directly into the main channel rather than the emergency flow way through the subdivision. The lake berm will be stabilized to protect downstream structures.

**Financial Summary**

**Bradfordville Pond 4 Outfall Stabilization**

Dept/Div:	<b>Engineering Services</b>	Comp Plan CIE Project:	<b>N/A</b>
Project #:	<b>064005</b>	Capital Improvement:	<b>N/A</b>
Service Type:	<b>Physical Environment</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project - Carryforward</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for the replacement of the outfall pipeline at the Bradfordville Pond, constructed by the Florida Department of Transportation as a part of the Thomasville Road widening project. The joints in the concrete structures comprising the outfall system, as well as the primary control structure, have minor cracking which needs to be repaired for the pond to function as designed. Further geotechnical investigation reveals water seepage through the berm on the west side of the pond. In order to address the water seepage issue, corrective measures for the western berm will increase the project cost substantially.

The transference of the remaining budget for the Bradfordville Pond 6 Rehabilitation CIP account will decrease the need for additional funds, however there will still be a shortfall.

**Project Description/Justification**

On January 29, 2009 the Board conducted a Workshop to address the need for Transportation and/or Stormwater projects to mitigate or alleviate community impacts during and after major storm events. In that Workshop, later ratified, the Board directed that a new program be enacted to aid areas that are impacted by flooding during major storms. The new program was to be similar to the County's on-going 2/3 Program, with the difference being that the petition requirement was reduced to 60% and that the County would contribute 20% of the project costs, subject to the availability of funds. During the Workshop, the Board also approved a new acronym for the existing 2/3 Program and the new program, CARDS, which stands for County Acquisition of Roads and Drainage Systems. On March 19, 2009, the Board conducted the First and Only Public Hearing to adopt a new ordinance creating the new CARDS program. This ordinance is now located in Chapter 18, Article IV, Division 2 of the Leon County Code of Laws. The original 2/3 Program remains as a separate Capital Improvement program under the new name of CARDS Transportation Program: Start Up Costs.

**Policy/Comprehensive Plan Information**

Comprehensive Plan Reference: STORMWATER MANAGEMENT GOALS, OBJECTIVES AND POLICIES: Policy 2.7.7:[C]( Leon County) Local government shall develop a program for retrofitting developed areas which lack adequate facilities for treating stormwater runoff by defining and implementing a sequence of intermediate milestones necessary to achieve the retrofit objective. Local government shall fund and initiate a work program to quantify water quality problems, costs and mitigation methods. Using this information it shall develop more specific retrofit objectives with due consideration to costs, methodology and the community's willingness to financially support implementation. Policies shall be adopted into the comprehensive plan that reflects these objectives including program funding targets. Local government shall then develop, fund, and initiate a water quality enhancement program which will achieve the retrofit goals on the established schedule.

Comprehensive Plan Reference: STORMWATER MANAGEMENT GOALS, OBJECTIVES AND POLICIES: Goal 1: provide a stormwater management system which protects the health, welfare and safety of the general public by reducing damage and inconvenience from flooding and protects surface water and groundwater quality.

Gum Road Target Planning Area

**Operating Budget Impact**

Operating budget impacts will be negligible because the project proposes enlarging an existing stormwater facility that already includes operating costs. The expanded facility will not add significant additional operating costs.

 Service Type: **Physical Environment**  
 Status: **Existing Project**

Comp Plan CIE Project: **Yes**  
 Capital Improvement: **Stormwater**  
 Level of Service Standard: **N/A**  
 Current Level of Service: **D**

**Project Description/Justification**

This project is for the improvement of long standing residential flooding adjacent to the primary drainage system within the Killearn Acres Subdivision. Included are two separate drainage improvement projects within the subdivision. Phase I (Killearn Acres Lower Drainage Improvements) is located downstream of Lake Saratoga and includes cross drain enlargements, construction of a stormwater treatment facility and improvements within the outfall channel to Lake Kanturk. Phase II (Killearn Acres Upper Drainage Improvements) consists of several cross drain/driveway culvert enlargements coupled with channel improvements along a section of Whirlaway Trail and Forward Pass Trail. The two phases were consolidated as a single phase and completed. Phase III (Forward Pass Trail between Whirlaway Trail and Pimlico Drive) was identified as a result of Tropical Storm Fay and will be completed as part of this project.

Funding in FY 2012 is to update the adopted FEMA Flood Insurance Rate Maps for the Killearn Acres Tributary between Bradfordville Road and Pimlico Drive. Creating a single floodway will comply with the Comprehensive Plan requirement to map the primary drainage system. In addition, establishing a Base Flood Elevation along the Tributary could reduce the federal Flood Insurance cost for approximately 250 residential properties.

 Status: **Existing Project**

Comp Plan CIE Project: **N/A**  
 Capital Improvement: **N/A**  
 Level of Service Standard: **N/A**  
 Current Level of Service: **N/A**

**Project Description/Justification**

This project is for the detailed analysis, design, and construction of a stormwater system to serve Killearn Lakes Plantation Units 1, 2, and 3. The stormwater system will identify stormwater outfalls primarily located within existing green spaces that convey stormwater from residential properties. These outfalls will be redesigned to maximize performance until such time as funding is available for a conventional stormwater system. This project will also provide for enhanced redirection of stormwater from densely developed residential areas to the outfalls in the green spaces. Design will focus on using available resources and facilities, such as the utilization of roadways as conveyances for stormwater, and protection of residential properties where roads must be used as stormwater conveyances.

**Project Description/Justification**

This project is for the purchase of a trolley with seating capacity of 50 60 to assist the Recycling and Community Education Programs conducted at the Solid Waste Management Facility. During the previous fiscal year, over 1,100 people toured the facility as part of the educational programs offered by Solid Waste Management.

Currently, tours of the facility are given in a 13 passenger van borrowed from Management Information Services. As the County continues to strengthen its community education component for recycling and sustainability, the purchase of this trolley will help increase community outreach and customer service.

Service Type:	<b>Physical Environment</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for the replacement/refurbishment of stormwater filters, sediment removal and structure repair in County owned ponds to ensure that they continue to meet environmental and operating permit requirements. Filter systems are typically designed to have a functional life of five years. As these systems age, the filtering systems may begin to deteriorate and not provide the water quality discharge for which they are designed. The removal of sediments and the repair of structures are needed to ensure that the ponds continue to function properly. Poorly functioning ponds can suffer from reduced storage capacity and an increased potential for flooding. In an attempt to deal with delays in permitting for the ponds originally programmed for FY11, the following ponds which were scheduled in the out years, were moved up on the schedule and completed in 2010 and 2011. Those ponds included Hampton Creek Pond #2, Chaires Park Ponds, Facilities Management Pond, NE Branch Library Pond, B L Perry Library Pond, Lakeside Pond, Old Rococo Road Pond #1 and Old Magnolia Road Pond #4.

The County's current stormwater pond inventory has been prioritized according to need. The following is the anticipated FY12 maintenance schedule:

- Hampton Creek Subdivision (1 Pond)
- Sedgefield Off-Site Pond (1 Pond)
- Pine Landing Subdivision (2 Ponds)
- Emerald Acres Subdivision (1 Pond)
- Maclay Road (1 Pond)
- Ashford Glen Subdivision (2 Ponds)
- Centerville Trace Subdivision (1 Pond)
- Huntington Oaks Plaza (1 Pond)
- Hill & Dale Subdivision (1 Pond)
- Fred George Road (1 Pond)

**Project Description/Justification**

This project is for the mapping of Leon County's stormwater structure inventory. The National Pollutant Discharge Elimination System (NPDES) permit for Leon County's Municipal Separate Storm Sewer System (MS4) will be renewed this fiscal year. This permit requires the mapping of known stormwater structural controls within the first year of the 5-year permit. The map will be maintained by staff using 'as built' surveys as projects are completed. The map will be integrated with the Operations Division work order system to document compliance with inspection and maintenance requirements of the MS4 permit.

# Transportation

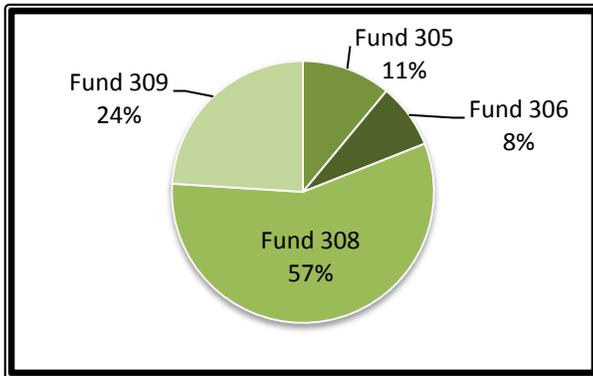

## Overview

This Transportation section contains capital improvement projects designed to facilitate the provision of services by the branches of Leon County government. Major Transportation Capital Projects funded in FY12 include: Arterial/Collector Resurfacing, Community Safety & Mobility, Intersection & Safety Improvements, and Public Works Vehicle and Equipment Replacement.

## Funding Sources:

Figure 15.8 shows that 57% (\$5,450,000) of the transportation projects are funded in FY12 by the Sales Tax Fund (Fund 308). The Sales Tax Extension Fund (Fund 309) funds 24% (\$2,296,854), the Gas Tax Fund (Fund 306) funds 8% (\$787,000), and the Capital Improvements Fund (Fund 305) funds 11% (\$1,058,500).

**Figure 15.8**  
**FY12 Transportation Projects**  
**By Funding Source**

## Managing Departments:

Table 15.15 shows that Engineering Services will manage the majority of the FY12 transportation capital improvement projects. Engineering Services will manage 86% of the total transportation budget for FY12. Public Works Operations will manage 7% and Fleet Management will manage 7%.

**Table 15.15**  
**FY12 Transportation Projects**  
**By Managing Department**

Managing Department	# of Projects	FY12 Budget
Engineering Services	9	\$8,218,854
Fleet Management	2	\$689,000
Public Works Operations	2	\$685,200
<b>Total</b>	<b>13</b>	<b>\$9,593,054</b>

## Operating Budget Impacts:

Table 15.16 shows the estimated impacts that some Transportation projects have on the operating budget. Impacts are shown in the fiscal year which they are anticipated to begin as well as the out-years that are affected by additional operating costs. These impacts are only estimates and are subject to change.

**Table 15.16**  
**Transportation Operating Budget Impacts**

Project	Project #	FY12 Estimate	FY13 Estimate	FY14 Estimate	FY15 Estimate	FY16 Estimate
The majority of the transportation projects do not result in new operating impacts. However, some Transportation enhancements result in additional stormwater treatment facilities which will impact the operating budget of the Public Works Operations Division.

The Capital Improvement projects highlighted are fully funded in FY11. It is anticipated that these projects will be carryforward into the next fiscal year.

**Leon County  
FY 2012/FY 2016 Capital Improvement Program**

**Arterial & Collector Roads Pavement Markings**

Dept/Div:	<b>Public Works - Operations</b>	Comp Plan CIE Project:	<b>N/A</b>
Project #:	<b>026015</b>	Capital Improvement:	<b>N/A</b>
Service Type:	<b>Transportation</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project allows for the refurbishing of long line thermoplastic on the County's Arterial and Collector Road System. In 1997, Public Works Engineering began a phase-in approach to upgrading pavement markings during resurfacing from traffic paint to thermoplastic. This change has resulted in much brighter and safer pavement markings on the County's Arterial and Collector Roads.

Due to the long life of thermoplastic (approximately five to six years) and the limited number of roads with thermoplastic markings at the time, this project was originally scheduled to occur every five years. However, due to annual resurfacing and reconstruction projects, the number of roads with thermoplastic markings has increased substantially in recent years. Conversely, the number of arterial and collector roads with traffic paint markings has decreased as thermoplastic markings have been installed. Further decreasing the need for traffic paint markings is the fact that Public Works has made a decision to no longer install pavement markings on most of the County's 'Local' Paved Roads.

To keep pace with these changes, Public Works has increased refurbishing pavement markings on approximately 10 miles of arterial and collector roads annually. This change allows for refurbishing of aging thermoplastic markings in a timelier manner, improving the coordination between asphalt resurfacing and thermoplastic refurbishing activities, and more accurately reflect funding needs between traffic paint and thermoplastic pavement markings.

**Financial Summary**

Service Type:	<b>Transportation</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for the annual resurfacing of part of the County's arterial/collector road system. The County is responsible for the general superintendence and control of the County roads and structures. Current funding levels have allowed the resurfacing of approximately 10 miles of arterial/collector roads per year. There are approximately 252 miles of arterial/collector roads in the County system at this time. At this funding level, it can be expected that all roads will be resurfaced on a 22 year frequency.

Status:	<b>Existing Project - Carryforward</b>	Current Level of Service:	<b>F</b>

**Project Description/Justification**

This project is for improvements to Bannerman Road from Meridian Road to Thomasville Road. In FY 2009, the Board revised the scope of this project in order to focus on a Corridor Study to determine the options for potential widening of the road. Project funds were reallocated to provide for the resurfacing of the road and have been completed. The reconstruction of the Bull Headley intersection is in the design process and the Corridor Study is under way.

Service Type:	<b>Transportation</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project - Carryforward</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for the extension of Beech Ridge Trail from Kinhega Drive to Bannerman Road in accordance with the Mediated Settlement Agreement approved by the Board on February 12, 2002. This project includes a curb and gutter section roadway with underground drainage, bike lanes, sidewalks and signalization at one of the new intersections.

On June 10, 2008, the Board approved a Proportionate Share Agreement with a private Developer. As part of the agreement, the Developer assumed most of the responsibility for this road construction with the County to complete the road across the Kinhega right of way and construction of a roundabout intersection. Until such time as the terms of the 2002 Mediated Settlement Agreement have been satisfied, this project remains a County responsibility.

**Operating Budget Impact**

This project will result in the creation of new stormwater treatment facilities which will impact the operating budget of the Division of Operations. This project will also result in the creation of additional areas to be resurfaced which will be addressed in the Arterial/Collector Resurfacing project.

**Leon County**  
**FY 2012/FY 2016 Capital Improvement Program**

**Buck Lake Road**

Dept/Div: **Engineering Services**  
 Project #: **055001**  
 Service Type: **Transportation**  
 Status: **Existing Project - Carryforward**

Comp Plan CIE Project: **Yes**  
 Capital Improvement: **Roadways**  
 Level of Service Standard: **N/A**  
 Current Level of Service: **F**

**Project Description/Justification**

This project is for the reconstruction of Buck Lake Road in three phases. Phase 1 is now complete and includes the widening from two lanes to four lanes of the segment running from Mahan Drive to Davis Drive and intersection improvements at the intersection with Mahan Drive. This portion of the project was funded through a Joint Project Agreement with AIG Baker, the developer of Fallschase. The initial construction of the intersection improvements at Pedrick Road as Phase 2a will be followed by the enhanced roadway section as Phase 3. Phase 2 improvements at the intersection of Buck Lake Road and Pedrick Road is in the close out phase of construction. The construction of Phase 3, enhanced roadway section is scheduled to begin April 2011. Funding includes \$29,608 in Mission San Miguel concurrency mitigation dollars for improvement to the Charlais Drive to Pedrick Road portion of Mahan Drive. The project also includes sidewalks and bike lanes on both sides of the road.

**Financial Summary**

**Policy/Comprehensive Plan Information**

Comprehensive Plan Reference: TRAFFIC FLOW AND EFFICIENCY: Objective 1.5: [T] Improve the safety and preserve the integrity of the arterial and collector street system with an effective access management and traffic signal control program and with the use of traffic operations features to maximize the capacity of the existing street system.

Florida Statute Chapters 334 & 336 - direct counties responsibilities for maintenance of county road systems

**Operating Budget Impact**

This project will result in the reconstruction of the existing road so that normal maintenance will not be required for five to ten years. Additional pavement will result in additional maintenance that will be offset by roads leaving the County program through City annexation. Conversion of the existing open drainage system to culverts will reduce operating and maintenance costs. One new stormwater treatment facility will be created at the Pedrick Road intersection resulting in an operating budget impact for the Division of Operations.

Service Type:	<b>Transportation</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

The County Acquisition of Roads and Drainage (CARDS) Transportation Program is for start-up costs for road and associated drainage improvements in accordance with Leon County Code of Laws, Chapter 16, Article II. The CARDS Transportation Program provides an opportunity for County residents who live on privately maintained roads and drainage systems to have their roads and drainage systems upgraded to County maintainable standards and then accepted into the County system for perpetual maintenance thereafter. If a 2/3 majority of the residents wish to utilize this program, the County will acquire ownership of the right-of-ways and easements necessary for County maintenance and the County will improve those systems. Upon completion, the total cost of the upgrade is assessed to all of the residents in the defined area. A separate Capital Improvement Project, CARDS Stormwater Program: Start-up Costs provides similar relief with County assistance where the cause of the problems is flooding during severe storm events.

**Policy/Comprehensive Plan Information**

N/A

**Operating Budget Impact**

The acquisition of these two pieces of shop equipment will reduce the labor required to perform preventative maintenance on Emergency Medical Services vehicles, specifically ambulances. It is estimated that within three and half years of acquiring this equipment, Fleet Management will recoup this investment.

**Leon County  
FY 2012/FY 2016 Capital Improvement Program**

**Intersection and Safety Improvements**

Dept/Div:	<b>Engineering Services</b>	Comp Plan CIE Project:	<b>N/A</b>
Project #:	<b>057001</b>	Capital Improvement:	<b>N/A</b>
Service Type:	<b>Transportation</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for the improvement of intersections throughout the County in order to maintain safe and efficient operations. Intersection improvements can also have significant impacts on the capacity of road sections as it relates to concurrency management. This project funds intersection improvements according to a prioritized list. Occasionally, improvements can be coordinated with improvements being performed by other governmental agencies such as the Florida Department of Transportation and the City of Tallahassee to reduce the long term costs to the County. Intersection improvements that have significant costs or other impacts are typically established as an independent project and are not included in this project.

The following intersection improvements are currently in design or construction:

Blairstone/Old St. Augustine  
Bannerman/Bull Headley  
Buck Lake/Nabb  
Buck Lake/Walden

The following are future intersection improvements to be addressed in response to concurrency requirements:

Chaires Crossroad/Capitola  
Kinhega/Deer Lake  
Geddie Road/State Road 20  
Tekesta/Deer Lake  
Aenon Church/State Road 20

**Open Graded Cold Mix Maintenance and Resurfacing**

Dept/Div:	<b>Public Works - Operations</b>	Comp Plan CIE Project:	<b>N/A</b>
Project #:	<b>026006</b>	Capital Improvement:	<b>N/A</b>
Service Type:	<b>Transportation</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project provides funding for materials and contract services associated with asphalt maintenance on Leon County's Open Grade Mix roadways. Prior to its sunset, the Alternative Stabilization Program was successful in stabilizing approximately 50 miles of County maintained dirt roads. Since the sunset of the Alternative Stabilization Program, maintenance on these roads is performed by the Division of Operations' Transportation Program. The majority of these maintenance activities will be performed by one of the two former construction crews from the Alternative Stabilization Program.

As Open Grade Mix roads age, it can be anticipated that these older roads will require a higher degree of maintenance (i.e. patching and rejuvenation) than in recent years. It can further be anticipated that some of these roads will require resurfacing. Additionally, permitting requirements on the County's Open Grade Mix roads require that porosity within the Open Grade mat be maintained by either hydro-cleaning or other maintenance methods. To meet these needs, funding is required for both routine maintenance and scheduled resurfacing of Open Grade Mix roads.

**Pullen Road at Old Bainbridge Road**

Dept/Div: **Engineering Services**  
 Project #: **053002**  
 Service Type: **Transportation**  
 Status: **Existing Project - Carryforward**

Comp Plan CIE Project: **Yes**  
 Capital Improvement: **Roadways**  
 Level of Service Standard: **N/A**  
 Current Level of Service: **F**

**Project Description/Justification**

This project is for improvements to Pullen Road at Old Bainbridge Road including the addition of left turn lanes, traffic signalization or an alternative, related stormwater infrastructure and pedestrian, and ADA facilities. The City of Tallahassee had previously requested that this intersection project be incorporated into the City's Pullen Road project for coordination and cost benefits. The City has recently placed the project on hold due to funding limitations. As it is unknown when the City funding will be available, the County is now re-assuming project responsibility for the intersection. In previous similar situations, the City has shared these costs on a pro rata basis, based on the number of City streets connecting to the intersection. Funding includes \$145,520 in River's Landing concurrency mitigation dollars and \$249,995 in Sagebrook Mill concurrency mitigation dollars.

	209,282	1,268,508	6,307	0	0	0	0	0	0	1,477,790

**Policy/Comprehensive Plan Information**

Comprehensive Plan Reference: Objective 1.5: [T] Improve the safety and preserve the integrity of the arterial and collector street system with an effective access management and traffic signal control program and with the use of traffic operations features to maximize the capacity of the existing street system.

**Operating Budget Impact**

It is anticipated that stormwater facilities will be shared with other City of Tallahassee projects in the area and will not result in operating impacts to the County.

**Springhill Road Bridge**

Dept/Div:	<b>Engineering Services</b>	Comp Plan CIE Project:	<b>Yes</b>
Project #:	<b>051007</b>	Capital Improvement:	
Service Type:	<b>Transportation</b>	Level of Service Standard:	<b>Yes</b>
Status:	<b>Existing Project - Carryforward</b>	Current Level of Service:	<b>N/A</b>

**Project Description/Justification**

This project is for the repair of the Springhill Road Bridge. During Tropical Storm Fay, the abutments of the bridge were severely eroded. The wood piles supporting the abutments are exposed and show signs of deterioration. An emergency repair has been completed by the County on a temporary basis to prevent further erosions. Additional work to remove the debris in the channel and protect the embankments from erosion is necessary. The construction time of the bridge repair work is estimated to be 60 calendar days if the weather permits.

**Talpeco Road & Highway 27 North**

Dept/Div: **Engineering Services**  
 Project #: **053005**  
 Service Type: **Transportation**  
 Status: **Existing Project - Carryforward**

Comp Plan CIE Project: **Yes**  
 Capital Improvement: **Roadways**  
 Level of Service Standard: **N/A**  
 Current Level of Service: **E**

**Project Description/Justification**

This project is for the installation of a right turn lane from Talpeco Road onto Highway 27 North (Monroe Street). This project will also provide related stormwater infrastructure as necessary. It is expected that the project will be developed as a joint project with the Florida Department of Transportation for other improvements to the intersection, such as additional turn lane enhancements, if FDOT identifies such additional improvements. This project is listed on the County's intersection improvement prioritization.

**Tram Road & Gaile Avenue**

Dept/Div: **Engineering Services**  
 Project #: **051004**  
 Service Type: **Transportation**  
 Status: **Existing Project - Carryforward**

Comp Plan CIE Project: **Yes**  
 Capital Improvement: **Roadways**  
 Level of Service Standard: **N/A**  
 Current Level of Service: **F**

**Project Description/Justification**

This project is for the realignment of Gaile Road's connection with Tram Road so that the intersection of the roads is at a right angle. This project will also provide related stormwater infrastructure as necessary. It is expected that this project will be developed as a joint project with the City of Tallahassee and that the City will be providing additional funding. This project is listed on the County's intersection improvement prioritization.

Project #:	<b>056010</b>	Capital Improvement:	<b>Stormwater</b>
Service Type:	<b>Transportation</b>	Level of Service Standard:	<b>N/A</b>
Status:	<b>Existing Project</b>	Current Level of Service:	<b>E</b>

**Project Description/Justification**

On January 29, 2009, the Board conducted a Workshop to address the need for Transportation and/or Stormwater projects to mitigate or alleviate community impacts during and after major storm events. As a result of that Workshop, later ratified during regular Board session, the following Capital Improvement projects were identified to utilize these budgeted funds:

**Proposed Improvement Projects:**

Autumn Woods	Lawndale Drive
Bannerman Road Retention Facility	Maylor and Taylor Roads
Ben Boulevard	Portsmouth Circle/Apalachee Parkway
Chevy Way	Raymond Tucker Road
Edinberg Estates	Rhodes Cemetery Road
Hawkbill Court	Salamanaca and Palencia
Lakeside Drive	Southbrokee/Otter Creek/Chadwick/Wildlife
Lakeview Drive	Sunflower Road
Langley Circle	Surrey Farms Subdivision

Funding for FY11 was approved during the June 22, 2010 budget workshop through the realignment of funds from the Local Economic Stimulus Program project. Also included in this project is funding for evaluation of the off-site stormwater flows through the Frontier Estates Subdivision. In order to fully fund this project, staff will be pursuing a Community Development Block Grant.

**Policy/Comprehensive Plan Information**

Comprehensive Plan Reference: STORMWATER MANAGEMENT GOALS, OBJECTIVES AND POLICIES: Goal 1: Provide a stormwater management system which protects the health, welfare and safety of the general public by reducing damage and inconvenience from flooding and protects surface water and groundwater quality. Comprehensive Plan Levels of Service for Stormwater conveyance requires that no floodwaters enter a residence in a 100-year storm.

**Operating Budget Impact**

These projects do not add to the maintenance responsibilities of the Public Works Operations Division. These projects improve stormwater and roadway operating conditions, thereby reducing on-going maintenance costs.
