»Office of Information & Technology Executive Summary

The Office of Information and Technology (OIT) section of the Leon County FY 2023 Annual Budget is comprised of the Management Information Services (MIS) and Geographic Information Systems (GIS) divisions. The MIS and GIS divisions provide reliable and effective technology and telecommunications products and services, which enable County offices to fulfill their respective goals and missions.

Leon County follows an annually updated five-year planning cycle, as reflected in the LEADS/Strategic Plan Section. As part of the Leon LEADS Strategic Planning process, the OIT Business Plan communicates the continued alignment of the Board's strategic priorities and initiatives with the department's actions and performance measures. This is a road map and broad plan of action for accomplishing Board priorities and serves as a gauge for the department in measuring outcomes of the Strategic Plan.

HIGHLIGHTS

New solutions include: completion of the re-engineering of the permitting tracking system (including the incorporation of new permit pricing structures) and continuing to monitor and improve cyber security solutions. OIT continues to implement mobile technologies by providing successful solutions for telecommuting, an anticipated paradigm shift in the workplace borne out of the department's response to the COVID-19 pandemic. MIS continues to maintain a robust infrastructure and computing environment that supports over 2,000 users and 8,000 devices at 80 sites, and a virtualized environment with over 700 servers and a storage environment of over 1 petabyte (over 1,000 terabytes).

Cyber security continues to be a top priority for OIT. OIT will continue to facilitate employee awareness trainings and maintain the many layers of protection from spam, viruses, and malware. Enhanced security monitoring has been implemented for the entire network, with special emphasis on the office of the Supervisor of Elections. Cloud computing is leveraged to augment technology needs for the Library's work order management system and the Office of Intervention & Detention Alternatives' (IDA) point-of-sale system, the Office of Human Services & Community Partnerships work order management system, HR's e-recruitment system, Parks and Recreation's reservation system, as well as many IT services for MIS. Application solutions provided by in-house staff include: support of the Intranet and Internet websites; the County's Committee Tracking System; Justice Information System, and upgrades for the County's HR and Finance systems.

Efforts continue to grow O365 modules such as TEAMS, SharePoint, and One Drive for process improvements such as agenda processing, file sharing, and work collaboration.

As a joint City/County partnership, the Tallahassee/Leon County GIS program provides accurate, consistent, accessible, affordable, and comprehensive GIS data, GIS infrastructure, and GIS services to support the needs of Leon County and the City of Tallahassee as well as their citizens. The program supports nearly 600 data layers and over 80 web sites for over 50 business units in the County and City which includes Public Works, the Planning Department, Tourism, the Property Appraiser, and DSEM. Additionally, GIS is integrated into the permitting systems for the City and the County, along with a shared portal for citizens and the building community for permitting information. As part of the County's reorganization of Emergency Management, TLCGIS now supports WebEOC, a regional multi-county shared emergency incident system tracking system, which was critical to the support efforts during and after Hurricane Michael and during the COVID-19 activation.

OIT assisted with the Real Time Crime Center by organizing and leading the cross-jurisdictonal team of technology experts to support the wide range of technology needs for the Center. The Real Time Crime Center is a joint project with Leon County Sheriff, Tallahassee Police, FSU Police, and FDLE to monitor and provide real-time information to first responders in the field. OIT continues to provide support for the courts with the Justice Information System for criminal case management as well as the Jail Management System for the Sheriff's Office.

Leon County placed in the top ten of counties with populations of 250,000 – 499,999 for the past eight years and was awarded 7th place nationally and 1st place in Florida for the 2021 Digital Counties Survey Award from the National Association of Counties (NACo), in partnership with e.Republic's Center for Digital Government.

MISSION STATEMENT

The mission of the Leon County Office of Information and Technology is to provide reliable and effective technology and telecommunications solutions and services to county agencies to enable them to fulfill their missions in serving the citizens of Leon County.

STRATEGIC PRIORITIES

QUALITY OF LIFE

Q1 - Maintain and enhance our parks and recreational offerings and green spaces.

Q2 - Provide relevant and essential offerings thorough our libraries and community centers which promote literacy, life-long learning, and social equity.

Q3 - Provide essential public safety infrastructure and services while supporting early intervention and prevention strategies.

GOVERNANCE

G1 - Sustain a culture of transparency, accessibility, accountability, civility, and the highest standards of public service.

G3 - Inform and engage citizens through multiple outreach platforms to ensure consistent, high-value, transparent communication on our most important issues.

STRATEGIC INITIATIVES

QUALITY OF LIFE

1. (Q3) Identify and evaluate pretrial alternatives to incarceration for low level and non-violent offenders and support reentry through regional partnerships and state and national efforts. (2022-23)

ACTIONS

QUALITY OF LIFE

1. Recycling Smartphones for distribution to pre- and post-sentenced individuals on community supervision to maintain communications and improve successful outcomes of supervision and access to human services in the community. (Ongoing)

Management and Budget (budget modeling support).		
		Management and Budget (budget modeling support).

Office of Information & Technology

Management Information Services (001-171-513)

Core Objectives	19. Implement electronic document management through Project Dox and/or AppXtnder for Public Works,
	Animal Control, Engineering, DSEM Divisions, Veterans Services, Human Resources, HSCP, the County
	Attorney's Office, the Office for Intervention and Detention Alternatives, and other divisions or offices
	as they become ready.
	20. Provide technology, telecommunications, and A/V support for the Public Safety Complex.
	21. Develop and support visualization solutions through digital signage for the Libraries and Facilities.
	22. Provide, maintain, and support secure telecommuting solutions for Leon County Government, Court
	Administration, Public Defender, State Attorney, Elections, and Tax Collector.
	23. Design and maintain permitting system solution for DSEM to allow efficient processing of building,
	developmental, and environmental permits.
	24. Provide teleconferencing solutions for Leon County Government.
Statutory	Florida State Constitution under Article V (Judiciary), Section 14 (Funding) requires provision of
Responsibilities	communications services, existing radio systems, and existing multi-agency criminal justice information
Responsibilities	systems for the Trial Courts (Court Administration and the Clerk of the Court), the State Attorney, and the
	Public Defender within the Second Judicial Circuit.
Advisory Board	The Criminal Justice Coordinating Council is the executive steering committee for the Justice Information
	System. Internally, the Justice Information Systems Agreement of 2001, re-ratified in January 2007, by the
	Criminal Justice Coordinating Council, governs the responsibilities and expectations of the multi-agency
	criminal justice system called JIS.
	/ /

Benchmarking								
Strategic Priorities	Benchmark Data	Leon County	Benchmark (Median Values for City/County Sector)					
	Average number of users per MIS Full Time Equivalent (FTE) (2,500 users/40 MIS Staff)	62.5:1 1	45:1 ²					
	Average number of Devices per Information Technician (IT Staff) (8,000/40 MIS Staff)	200:1	70:12					
	Total IT Spending (Operating and CIPs) as Percentage of Budget	4.2%	5.77% 3					
<u> </u>	Number of Network Sites	774	44					

Benchmark Sources:

- 1. Added Real-Time Crime Center network location.
- 2. February 2017 Robert Half Technology reports 45:1 staffing levels for enterprise networks
- 3. November 2017 Deloitte Insights states all industries are at 3.28% and Education/Non-Profits are at 5.77%
- 4. Increased due to staffing vacancies.

Performance	rformance Measures									
Strategic Priorities	Performance Measures	FY 2020 Actual	FY 2021 Actual	FY 2022 Estimate	FY 2023 Estimate					
	Average number of e-mails processed each month (millions) ¹	1.40	0.69	1.75	1.80					
	Approximate amount of valid e-mails (balance after malware/viruses trapped) ²	65%	76%	65%	65%					
	Average monthly visits to Leon County website ³	319,625	356,700	335,000	350,000					
	Percent of help calls completed the same day ⁴	65%	82%	85%	85%					
(A)	Number of new applications/services deployed ⁵	13	24	19	20					

Notes:

- Total number of emails decreased in FY 2021 due to increased use of collaboration video conferencing tools, such as Zoom and Teams. This number is expected
 to rise in FY 2022 and FY 2023 with the expected reduction in the number of virtual meetings.
- 24% of external emails in FY 2021 were identified as viruses/malware. The FY 2022 and FY 2023 figures are estimated to decrease due to enhanced security measures provided by the email spam filters.
- Visits to the website increased in FY 2021 due to continued COVID-19-related information and CARES Act registration-related programs and services. This
 number is expected to moderate as these services wane.
- 4. In FY 2021, 82% of all help calls were closed within a one-day period. This number is expected to rise in the outyears due to the increased efficiency associated with remote helpdesk access.
- 5. In FY 2022, staff implemented 19 new applications, including: network connectivity for the Real Time Crime Center; re-engineering of the Accela permitting project; a new cyber security monitoring service; a cyber security assessment and implemented recommendations; new financial reports for the Clerk's office; and a new JIS reporting application as required by FDLE & Legislature for criminal reporting statistics. The FY 2023 estimate predicts a consistent trend.

The major variances for the FY 2023 Management Information Services budget are as follows:

Increases to Program Funding:

^{1.} Costs associated with the County's portion of retirement rates passed by the Florida Legislature, health insurance premium rates estimated at 6%, increase in workers' compensation costs, and funding for 5% raises for all employees.

^{2. \$289,454} for inflationary adjustments to contractual services associated with financial management software, system backup, email archiving, work order management and cybersecurity incident response services.

^{3.} In response to the COVID pandemic, non-essential travel and training was reduced by 50% in FY 2021. In FY 2022, this funding was restored to 75%. This funding is restored to pre-pandemic levels in FY 2023. Also includes \$10,500 for additional training to troubleshoot application and software issues and address the needs of the expanding network.

The Public Safety Complex (PSC) officially opened in July 2013. The PSC budget is jointly funded 50/50 with the City of Tallahassee. The budget presented here shows 100% of the costs of the PSC Technology; the City's share is reflected as an offsetting revenue.

The major variances for the FY 2023 Public Safety Complex Technology budget are as follows:

Increases to Program Funding:

1. Costs associated with the County's portion of retirement rates passed by the Florida Legislature, health insurance premium rates estimated at 6%, increase in workers' compensation costs, and funding for 5% raises for all employees.

Goal	The goal of the Tallahassee-Leon County GIS is to work in partnership with county agencies to provide accurate, consistent, accessible, affordable, and comprehensive GIS data, GIS infrastructure, and GIS services to support the unique business needs of Leon County and the citizens we serve.						
Core Objectives	 Development and management of high-accuracy planimetric and topographic basemap data. Creation, compilation, access and distribution of derived and thematic GIS data. Manage the overall quality and integrity of departmental GIS data. Provide access to GIS analytical tools. Integrate GIS technology, service and support into the business processes of government. Identify additional sources of GIS data to support government activities and services. 						
Florida Statute 7 – County Boundaries: Section 7.37 – Leon County; Florida Statute 101 – Voting Meter Procedures: 101.001 – Precincts and polling places, boundaries; Florida Statutes 163 – Intergovernmental Procedures: 101.001 – Precincts and polling places, boundaries; Florida Statutes 163 – Intergovernmental Procedures: 101.001 – Precincts and polling places, boundaries; Florida Statutes 163 – Intergovernmental Procedures: 101.001 – Procedures: 101.001 – Procedures: 101.001 – Procedures: 101.002 – Regulation, 163.301-163.403 – Community Redevelopment, Section 163.501-163.526 – Neighborhood Improvement Description 163.565-163.572 – Regional Transportation Authorities; Florida States 166 – Municipalities: Section - Public service tax; Florida Statutes 192 – Taxation: General Provisions, Non-ad Valorem; Florida Statute Assessments: Section 193.023 – Property Appraiser's requirement established to provide or pay for other carrial imagery at FDOR specifications every three years., Section 195.002 – Property Appraiser and use of Imagery in Inspections; Florida Statute 202 – Communications Services Tax simplification Law: Section 202.1 Communications Tax; Florida Statute 472 – Land Surveying and Mapping: Section 472.027 – Minimum to standards for surveying and mapping; City of Tallahassee Environmental Ordinance; Leon County Environ Management Act; Local Comprehensive Plan; Interlocal Agreement for a Geographic information System, Interlocal Agreement for a Geographic information System.

Notes

- 1. TLCGIS continues to be responsive to the needs of its customers to ensure a rapid and effective response to the County, City, and Property Appraiser's Office.
- 2. Internet based applications increase with every new project. TLCGIS staff continues to include additional layers of data to the open data download portal to best meet the customer needs.
- 3. TLCGIS continues to build usership with its web-based GIS platform "ArcGIS Online". In FY 2022, 41 new users were added for a total of 456 (compared to 100 new users in FY 2021). The estimate for FY 2022 illustrates a forecasted stabilization in user growth.
- 4. TLCGIS continues to maintain the base-map components and the associated derivative products while constantly seeking increased value in product and technology advances.
- 5. The number of data layers maintained varies from year to year; older data layers are consolidated, and new data layers are created. In FY 2022, additional base map layers were delivered by the vendor, as well as other new efforts initiating additional layer creation. Additional growth is forecasted for FY 2023, based on anticipated projects and growth in data sets. GIS also receives new data each year from aerial photography vendors.
- 6. The projected increase in FY 2022 and FY 2023 is associated with deliverables of derived base map data as well as new map services that support new projects and activities across the interlocal. This metric correlates with the number of layers maintained and is influenced by the number of projects and users.
