## Capital Improvement Program Overview

#### Capital Improvement Program (CIP)

The capital improvement program is a resource that helps Leon County government ensure that decisions on projects and funding are made wisely and in a well-planned manner. The quality of life for a Leon County resident depends on the reliability of transportation, the performance of the stormwater system, the efficiency of waste disposal, the accessibility of culture and recreation, and many other essential public services.

High quality service levels can be achieved through the proper planning and provision of the replacement, maintenance and enhancement of the County's capital assets. In accordance with Florida Statute Chapter 125.74(1)(d), the County Administrator is annually responsible to prepare and submit a capital budget and capital improvement program to the Board.

#### **Capital Assets**

A capital asset is a new or rehabilitated physical asset that is nonrecurring and has a useful life of more than five years and costs at least \$20,000.

#### Capital Project

A capital project is undertaken to acquire a capital asset. Examples include the construction, maintenance, and/or renovations to public buildings as well as improvements to stormwater and transportation systems.

#### Capital Improvement Program

Capital infrastructure is essential to the Leon County community. Leon County's capital improvement program is a multi-year program that identifies capital projects to be funded during a five year period. It specifies each capital project to be undertaken, the year it will begin, the anticipated expenses for each year and the method of financing.

Projects and financing sources in the capital improvement program for years other than the current budget year (commonly called "outyears" or "planned years") are not authorized until the annual budget for those years is legally adopted. The outyears serve only as a guide for future planning and are subject to further review and modification.

#### **Annual Capital Budget**

The annual capital budget represents the first year of a capital improvement program. It is the appropriation of capital spending legally adopted by the Board.

The annual capital budget is adopted in conjunction with Leon County's annual operating budget and provides legal authority to proceed with specific projects.

#### **Program Preparation**

Each fiscal year, the Office of Management and Budget facilitates the preparation of a capital improvement program. Officials, administrators, and staff of Leon County government all assist in this process. The preparation process includes the following:

#### I. Assessment of Capital Needs

(Department/Division Staff)

- Prepare an inventory
- Evaluate whether to repair or replace facilities and/or equipment
- Identify future needs

#### II. Identification of Capital Projects

(Commission, Administration, Department/Division Staff)

- Review status of current projects
- Develop information for new projects
- Submit project requests

#### III. Financial Analysis

(Administration and OMB)

- Evaluate financial conditions
- Forecast financial trends
- Evaluate funding options

#### IV. Evaluation & Planning of Capital Projects

(Administration and OMB)

- Review and prioritize project requests
- Select projects and project schedules
- Determine project funding sources

# V. Adoption of Capital Improvement Program & Annual Capital Budget

(Commission, Administration, and OMB)

- Prepare and submit tentative program and budget to Commission
- Hold public hearings
- Revise and prepare final program and budget for adoption

## VI. Implementation & Monitoring of Annual Capital Budget

- October 1 through September 30
- Departmental Biannual Project Status Reports

## »Capital Improvement Program Overview

The following is a brief description of the information contained in the Capital Improvement Program. A Project Index can be found on page 25-2.

The remainder of this section contains information, analysis and summaries about Leon County's capital budget and capital Improvement program.

- Capital Improvement Program Analysis: Brief analysis of the FY 2024-2028 capital improvement program.
- Capital Projects by Managing Division: Summary table of all capital improvement projects organized by managing division.
- **Operating Budget Impacts:** General description and summary table of estimated impacts capital projects are anticipated to have on the operating budget.

#### **Capital Project Sections**

Each section represents the service type of the capital projects it contains. The Capital Improvement Program consists of five service types: Culture & Recreation, General Government, Health & Safety, Physical Environment, and Transportation. Included in each section is an overview with a brief analysis, an index of the projects and a detail sheet for any project with planned activity in any fiscal year from FY 2024 to FY 2028. The project detail sheets each provide the following:

#### **General Information**

Includes project title, managing division, project number, service type, project status, description/justification and, if applicable, project location map and photo.

### **Strategic Plan Information**

Each project identifies what Strategic Priority(s) it works toward. If applicable, each project notes if it works toward fulfilling one or more of the Board's Strategic Initiatives. The Leon County Board of County Commissioner's Strategic Priorities and Initiatives are further explained in the LEADS/Strategic Plan section.

#### Policy/Comprehensive Plan Information

Non-comprehensive Plan Related Projects - relevant policy, law, mandate, ordinance, master plan, initiative, etc.

#### Comprehensive Plan Related Projects

Identifies whether the project is in the capital improvement element of the comprehensive plan, the improvements (stormwater, parks & recreation, roads), level of service standard for the improvement, current level of service, level of service upon completion of the improvement, etc.

#### **Financial Information**

Includes funding sources, past expenditures through FY 2022, FY 2023 adjusted budget and FY 2023 year-to-date expenditures, FY 2024 budget, FY 2025 – FY 2028 planned budget, FY 2024 – FY 2028 total, total project cost, and estimates of any anticipated impacts on the operating budget.

## »Capital Improvement Program Analysis

#### FY 2024 through FY 2028 Capital Budget

Chart 25.1 shows the capital funding for each fiscal year from FY 2015 through FY 2024. The total FY 2024 capital budget is \$24,617,489. This is a 9.13% increase from the adopted FY 2023 capital budget of \$22,558,022.

The FY 2024 – FY 2028 Capital Improvement Plan is primarily focused on the long-term maintenance of the County's extensive existing infrastructure, some of which includes over 2 million square feet of facilities, hundreds of miles of roads, and thousands of acres of parks, greenways, and trails. The capital projects planned for FY 2024 include transportation and stormwater maintenance, sidewalk construction, general county maintenance and improvements, fleet maintenance, technology upgrades, and parks and recreation maintenance and improvements. In developing the proposed five-year capital improvement program, the County continues to focus the limited resources of the County towards maintaining aging infrastructure. A large portion of the projected maintenance budget supports aging facilities. In particular, the County has a number of older large buildings (Sheriff Facilities, Courthouse and Annex, Main Library, and OIDA Urinalysis Building) that are operating with equipment near or at their end-of-life use.

The overall capital project increase for FY 2024 is \$2,059,467. In addition to overall inflation and the rising costs of construction materials and supplies, increased costs are attributed to funding: facility maintenance; statutory technology requirements for the courts, and intersection and stormwater improvements. Over the past three fiscal years, Leon County has used \$10 million in ARPA funds to support the County general capital program and \$17.4 million to fund sewer projects in the Primary Spring Protection Zone. The use of these funds has allowed for a reduced level of recurring general revenue funds to support the capital program.

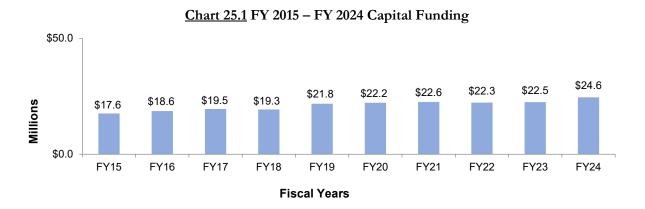

Over the next five years, the general revenue supported capital budget averages \$16 million each year. To maintain this capital program, which is largely focused on maintaining the existing County infrastructure (buildings, IT systems and stormwater), a consistent amount of recurring general revenue would be required to fund these projects. From FY 2020 – FY 2024, the recurring general revenue support for the capital program has ranged from \$5.0 million - \$8.2 million. One-time ARPA revenues were used over the past several years to provide additional revenues to support the capital program.

As fund balances grow due to revenue exceeding the budgeted amount and the under expenditure of the operating budget, these accumulated reserves, in excess of the balance required to maintain reserve policy minimums, become available to support one-time expenses in the capital program. Over the past 15-years, the County has used these excess reserves four times to support the capital program. These "fund sweeps" paid for the County's portion of the Public Safety Complex, the branch library expansion and stormwater projects. Using these reserves allowed the County to avoid the interest associated with the issuance of debt.

The Board approved a fund sweep of \$15.68 million to support the capital program for the next two to three years, including \$10.86 million in non-countywide general revenue, \$946,212 from the stormwater fund, and \$3.88 million in transportation reserves to support the transportation capital program. In addition to the fund balance sweep, \$2.1 million in ARPA revenue replacement funding is available to support the capital program. Using these remaining \$2.1 million in ARPA revenue replacement funds offsets the need to increase the general revenue transfer to capital to ensure capital projects are not delayed due to supply chain issue. These funds were advanced funded in FY 2023 to support the FY 2024 five-year capital improvement program.

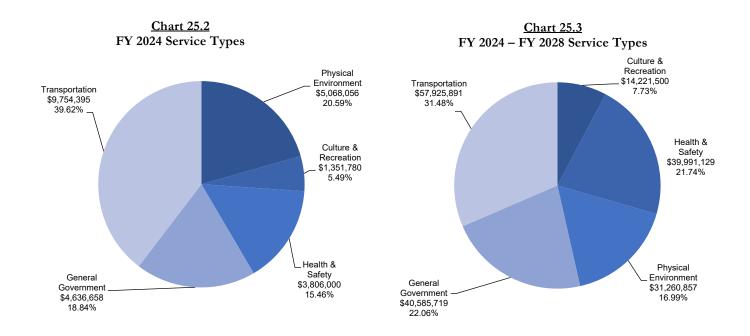

## »Capital Improvement Program Analysis

The following illustrates the Capital Improvement Program funding levels since FY 2015 demonstrating a steady and conservative investment in the County's capital infrastructure and assets. This consistent level of funding reflects a commitment to a proactive preventative maintenance program, investing in sustainable resources and design, maintaining the County's standard level of service and identifying cost avoidances and savings where possible. Since 2013, the County has saved or avoided costs totaling more than \$63.4 million. Of those costs, approximately \$51.8 million of savings were in capital expenditures.

#### Service Types

Chart 25.2 illustrates the service types of the projects in the FY 2024 capital budget. Chart 25.3 shows the service types of the projects in the FY 2024 – FY 2028 Capital Improvement Program. The Capital Improvement Program continues to allocate the majority of funds on transportation projects. Budgeted reserves are not reflected below.

#### **Project Funding Sources**

## »Capital Improvement Program Analysis

Table 25.1 shows the project funding sources for the FY 2024 capital budget and the FY 2024 – FY 2028 capital improvement program. Capital Improvements (Fund 305) and Sales Tax Extension 2020 (Fund 351) are the primary sources of funding for the FY 2024 capital budget, with \$6,755,581 (27.44%) and \$6,319,305 (25.67%) respectively. Capital Improvements (Fund 305) is the primary source of funding for FY 2024 – FY 2028, totaling \$83,186,952 (45.21%). The table does not reflect budgeted reserves.

Table 25.1 FY 2024 - FY 2028 Project Funding Sources

Funding Source	FY 2024 Budget	0/0	FY 2024 – FY 2028 Program	0/0
Capital Improvements (Fund 305)	\$6,755,581	27.44%	\$83,186,952	45.20%
Sales Tax Extension 2020 (Fund 351)	\$6,319,305	25.67%	\$33,531,492	18.23%
Sales Tax Extension 2020 JPA (Fund 352)	\$4,660,350	18.93%	\$23,693,210	12.88%
EMS MSTU (Fund 135)	\$2,520,000	10.24%	\$17,035,000	9.26%
Transportation Improvements (Fund 306)	\$1,916,346	7.78%	\$18,855,655	10.25%
Solid Waste (Fund 401)	\$1,640,000	6.66%	\$5,648,000	3.07%
EMS MSTU (Fund 135)	\$183,000	0.81%	\$9,408,000	5.99%
County Government Annex (Fund 165)	\$565,737	2.31%	\$1,283,905	0.70%
Huntington Oaks Plaza (Fund 166)	\$158,570	0.64%	\$280,383	0.15%
Building Inspection (Fund 120)	\$81,600	0.33%	\$470,499	0.26%
Total	\$24,617,489	100%	\$183,985,096	100%

In November 2014, Leon County residents approved a referendum providing a second extension of the 1-Cent Local Option Sales Tax beginning in FY 2020 for 20 years. The extension commits 80% of the revenues for Blueprint infrastructure projects, Blueprint Economic Development programs, and Livable Infrastructure for Everyone (LIFE) projects and will be jointly administered and funded by Leon County and the City of Tallahassee. The Blueprint Joint Participation Agreement (BP 2020 JPA) revenue supports other County infrastructure projects funded through the County share of the revenue.

The BP 2020 JPA revenue, accounted for in Fund 352, will be used for water quality, stormwater and sidewalks. The County's share of the dedicated water quality funding from the future JPA proceeds supports a number of strategic initiatives to address septic upgrades and sewer conversion projects in the primary spring protection zone. Over the past several years, the County has utilized existing capital project reserves to match state grant funds in support of the septic to sewer projects. The 2% for L.I.F.E. is allocated for Miccosukee Sense of Place, rural road stabilization, street lighting, boat landing enhancements, and recreational amenities. A new L.I.F.E. category (Neighborhood Enhancements & Transportation Safety) was added in FY 2024. Funding will be used to address culvert repairs, replacements, or upgrades; traffic safety and emergency access projects; and stormwater erosion and soil stabilization projects. The remaining 20% of the sales tax extension will be split evenly between the County and the City. The County's 10% share, accounted for in Fund 351 (Sales Tax Extension 2020), will be used for transportation resurfacing and intersection safety improvement projects and other statutorily authorized uses approved by the County.

New and Revised Capital Projects

## »Capital Improvement Program Analysis

Table 25.2 indicates new or revised projects for the FY 2024 capital budget and the FY 2024 – FY 2028 capital improvement program. Projects dedicated to Public Safety Complex technology capital improvements were previously funded under the Public Safety Complex (#096016). Two projects totaling \$725,000 will be funded in FY 2024. For the five-year period, a total of \$4,225,000 is budgeted for the new or revised projects.

Table 25.2 FY 2024 – FY 2028 New and Revised Projects

New and Revised Projects	FY 2024 Budget	%	FY 2024 – FY 2028 Program	%
Public Safety Complex Technology	\$450,000	62.07%	\$2,850,000	67.46%
L.I.F.E. Neighborhood Enhancements & Transportation Safety	\$275,000	37.93%	\$1,375,000	32.54%
Total	\$725,000	100%	\$4,225,000	100%

#### Management of Capital Projects

Table 25.3 shows the managing divisions of the FY 2024 capital budget and FY 2024 – FY 2028 capital improvement program. The listed divisions manage a total of 89 projects, but only 53 projects will receive additional funding in the FY 2024 Capital Improvement Program; the remainder is funded through the carryforward process or will receive funding in the outyears. Budgeted reserves and carryforward projects are not reflected below.

Table 25.3 FY 2024 – FY 2028 Managing Divisions

Managing Division	# of Projects	FY 2024 Budget	0/0	FY 2024 – FY 2028 Program	0/0
Engineering Services	26	\$12,134,083	49.29%	\$69,948,549	38.02%
Facilities Management	14	\$3,069,307	12.47%	\$29,241,474	15.89%
Fleet Management	12	\$3,603,700	14.64%	\$35,579,515	19.34%

<sup>\*</sup>Funding for projects not completed in FY 2023 will be included in the FY 2023 to FY 2024 carry forwards to provide continued project funding.

## Operating Budget Impacts

The following is a general description of some of the impacts that different types of projects can have on the operating budget.

#### **Facilities**

The construction or acquisition of a new facility that increases the square footage that the County is required to maintain. This increase results in additional expenses including utilities, maintenance and custodial contracts, and repairs. New community centers and libraries are typically service enhancements, and therefore also require additional staffing, operating supplies, library materials, and machinery and equipment. A new facility may also involve the cancellation of a lease on an existing facility to help offset the increased costs.

Renovations or upgrades to an existing facility are often completed to improve efficiency and/or to avoid total replacement. An increase in efficiency often results in reallocation of staff time and a decrease in costs such as maintenance, utilities, and repairs.

#### Parks, Greenways & Trails

The development of a new park, greenway, or trail space increases the acreage that the County is required to maintain. This increase results in additional expenses including maintenance staff, maintenance vehicles and equipment, operating supplies, and utilities.

#### Roadways

The improvement of roadways generally requires ongoing maintenance costs such as pothole patching, lane and crosswalk re-striping, sign and traffic signal replacement, and roadside right-of-way mowing and maintenance.

#### **Stormwater**

The improvements of existing stormwater ponds or drainage systems and construction of new ponds or drainage systems are often completed to correct a deficiency. These corrections typically result in decreases in maintenance and repair costs.

#### **Technology**

The implementation of new technology often requires an increase for maintenance contracts once the warranty period has expired. Upgrades to existing technology either have no additional costs or minimal costs. The upgrades can result in a decrease in maintenance costs and reallocation of staff time due to the increased efficiency.

#### Vehicles/Equipment

The purchase of a new vehicle or piece of equipment results in additional expenses including vehicle insurance coverage, preventative maintenance, fuel and oil, and operating supplies. The purchase of a new vehicle or piece of equipment may also require additional staffing for operation. Replacement vehicles or equipment reduce the maintenance portion of the operating budget for the first three years.

## » Operating Budget Impacts

Table 25.5 outlines the estimated impacts that some projects may have on the operating budget. Impacts are shown in the fiscal year in which they are anticipated to begin and the outyears that will be affected by additional operating costs. The impacts shown in this table are only estimates and include projects that will reduce the operating budgets of some divisions. These impact estimates are subject to change.

Table 25.5 Operating Budget Impacts by Project

Project	#	FY 2024 Budget	FY 2025 Estimated	FY 2026 Estimated	FY 2027 Estimated	FY 2028 Estimated
Library Technology	076011	\$25,000	\$25,000	\$25,000	\$25,000	\$25,000
Mobile Devices	076042	\$16,391	\$16,883	\$17,389	\$17,911	\$18,448

Serenity Cemetery Expansion	091002	\$800	\$500	\$500	\$800	\$500
Total		\$99,475	\$99,667	\$100,173	\$100,995	\$101,232

Table 25.6 outlines the estimated operating budget impacts by Division. Impacts are shown in the fiscal year in which they are anticipated to begin and the outyears that will be affected by additional operating costs. The impacts shown in this table are only estimates and are subject to change. In addition, divisions may share the operating impacts of one project. For example, Facilities Management is responsible for the utilities and maintenance of the libraries, while the Library Department is responsible for personnel and operating supplies.

Table 25.6 Operating Budget Impacts by Division

D	FY 2024	FY 2025	FY 2026	FY 2027	FY 2028
Division	Budget	Estimated	Estimated	Estimated	Estimated
Management Information Services	\$41,391	\$41,883	\$42,389	\$42,911	\$43,448
Public Works	\$58,084	\$57,784	\$57,784	\$58,084	\$57,784
Total	\$99,475	\$99,667	\$100,173	\$100,995	\$101,232

### **>>>** Culture & Recreation Overview

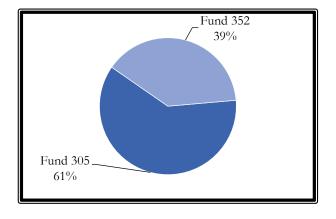

#### Overview

The Culture & Recreation section contains capital improvement projects designed to facilitate the provision, maintenance, and operation of culture and recreation facilities and activities. Major Culture & Recreation capital projects funded in FY 2024 include Parks Capital Maintenance, Playground Equipment Replacement, Greenways Capital Maintenance, Library Services Technology, Essential Libraries Initiative and Livable Infrastructure for Everyone (L.I.F.E.) projects.

#### **Funding Sources**

Chart 25.4 illustrates that 61% (\$825,030) of Culture & Recreation projects are funded in FY 2024 by general revenue, or the Capital Improvements Fund (Fund 305). The L.I.F.E. Fund (Fund 352) is funding the remaining 39% at \$526,750.

Chart 25.4
FY 2024 Culture & Recreation Projects
by Funding Source

#### **Managing Divisions**

Table 25.7 shows Parks & Recreation will manage 9 projects, or 75% of the FY 2024 Culture & Recreation capital improvement projects. Facilities Management, Fleet Management and Management Information Services will each manage one project for the remaining 25% of the Culture & Recreation capital improvement projects for FY 2024.

<u>Table 25.7</u>
FY 2024 Culture & Recreation Projects by Managing Division

Managing Division	# of Projects	FY 2024 Budget
Parks & Recreation	9	\$526,750
Facilities Management	1	\$500,000
Management Information Services	1	\$325,030
*Fleet Management	1	\$0
Total	12	\$1,351,780

<sup>\*</sup>This project was advanced funded in FY 2023 and will be carried forward into FY 2024.

#### **Operating Budget Impacts**

Table 25.8 shows the estimated impacts that some Culture & Recreation projects have on the operating budget. Impacts are shown in the fiscal year which they are anticipated to begin as well as the outyears that are affected by additional operating costs. These impacts are only estimates and subject to change.

<u>Table 25.8</u> Culture & Recreation Operating Budget Impacts

Project	Project #	FY 2024 Budget	FY 2025 Estimate	FY 2026 Estimate	FY 2027 Estimate	FY 2028 Estimate

#### >>> Apalachee Regional Park

Dept/Div: Parks & Recreation Comp Plan CIE Project: Yes 045001 Capital Improvement: N/A Project #: Service Type: Culture & Recreation Level of Service Standard: N/A

Status: **Existing Project** Strategic Priority: EC1, EC4, Q1

#### Project Description/Justification

This project is for ongoing park improvements associated with creating a positive economic impact for the community and implementing the Master Plan.

Funding in FY 2026 through FY 2028 will be used to continue developing the Master Plan for the park, including amenities such as: a playground; paving and resurfacing roads within the Park; as well as evaluating opportunities for trail expansion and additional amenities following the relocation of the Household Hazardous Waste Center and the Rural Waste Services Center Roll-off site.

#### Strategic Initiative

(EC4) Continue to build upon the reputation of Apalachee Regional Park as a destination venue for cross country athletes by securing state, regional and national competitions. (2022-6)

(EC4) To further promote Leon County as a biking community, pursue the State's "Trail Town" designation and continue to coordinate with the City, Blueprint, State, and U.S. Forest Service to leverage capital improvements in pursuit of the International Mountain Biking Association (IMBA) designation. (2022-7)

Attract 100 state, regional, or national championships across all sports. (T1)

Construct an additional 90 miles of sidewalks, greenways, trails, and bike lanes. (T11)

Dept/Div: Facilities Management Comp Plan CIE Project: N/A 086085 Capital Improvement: N/A Project #: Level of Service Standard: N/A Service Type: Culture & Recreation Status: **Existing Project** Strategic Priority:  $\mathbf{Q}2$ 

#### Project Description/Justification

This project is to implement the Essential Libraries Initiative, a re-envisioning of the Leon County Public Library System, to address the changing needs of residents and trends in library use. The plan includes several enhancements to the Library such as new programs and services, capital improvements, existing position reclassifications, and policy revisions to support the initiative. To ensure that funding is available as final designs are completed for the first phase of renovations to the Main Library, an additional \$500,000 was allocated in FY 2024 for a total allocation of \$1.9 million to implement the first phase. \$2.5 million is programmed from FY 2025 - FY 2027 to complete the associated construction activities.

#### Strategic Initiative

(Q2) Implement the Leon County Essential Libraries Initiative. (2022-21)

#### Project Description/Justification

This project is for the development of the Fred George Greenway and Park in accordance with amenities and activities outlined in the Land Management Plan. Phases of the park's remaining development will include the design, permitting, and construction of a second trash trap (located at Keystone Ct.); wetland restoration; the extension of water and sewer lines to the museum; and the construction of boardwalks and two observation decks. Program funding for FY 2024 through FY 2028 will be allocated from the remaining Blueprint funds after completion of the St. Marks Headwaters project. State funding in the amount of \$400,000 was provided towards the wetland restoration construction. A grant agreement with the Florida Department of Environmental Protection was executed in Fall 2022. Design and permitting for the wetland restoration will be completed in September 2023. Construction is anticipated to begin in Winter 2023.

Parks & Recreation Comp Plan CIE Project: Dept/Div: N/A 091007 Capital Improvement: N/A Project #: Level of Service Standard: N/A Service Type: Culture & Recreation Status: **Existing Project** Strategic Priority: Q1

#### Project Description/Justification

In November 2014, Leon County residents approved a referendum providing a second extension of the One-Cent Local Option Sales Tax beginning in FY 2020 for 20 years. Blueprint 2020 provides funding for Livable Infrastructure for Everyone (L.I.F.E.) projects. L.I.F.E. projects are an allocation of 2% of the Blueprint 2020 Sales Tax Extension funding and will address Leon County's rural area basic infrastructure needs.

Leon County maintains 24 boat landings, located on seven water bodies (Carr Lake, Lake Iamonia, Lake Jackson, Lake Miccosukee, Lake Munson, Lake Talquin and Ochlockonee River). Funds are budgeted annually through the Capital Improvement Program for boat landings, and improvements are made when adequate funds are accumulated to complete a project.

FY 2024 through FY 2028 funding is budgeted at \$185,000 to address priorities for fishing pier replacements and boat landing improvements and upgrades.

#### Project Description/Justification

In November 2014, Leon County residents approved a referendum providing a second extension of the One-Cent Local Option Sales Tax beginning in FY 2020 for 20 years. Blueprint 2020 provides funding for Livable Infrastructure for Everyone (L.I.F.E.) projects. L.I.F.E. projects are an allocation of 2% of the Blueprint 2020 Sales Tax Extension funding and will address Leon County's rural area basic infrastructure needs.

Leon County provides over 3,800 acres of park space and greenways, playgrounds, trails, boardwalks, baseball fields, multi-purpose fields, concession stands, etc. L.I.F.E. funding is dedicated to assist in paying for updates and improvements for these different amenities. While the County's current five-year CIP provides funding for planned improvements, once a park is operational and being actively used, minor enhancements are often identified through citizen input (e.g.: the provision of additional grills or an additional shelter). Previous funding was allocated for improvements at J. Lee Vause Park. Outyear funding supports playground upgrades and enhancements.

#### Operating Budget Impact

Operating expenses for the St. Marks Headwaters Greenway will be determined once the park is complete and will be budgeted in the operating budget of the Parks and Recreation division.

### Seneral Government Overview

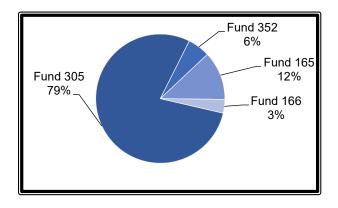

#### Overview

The General Government section contains capital improvement projects designed to facilitate the provision of services by the legislative and administrative branches of Leon County government. Major General Government capital projects funded in FY 2024 include Building Infrastructure and Improvements, County Compute Infrastructure, Leon County Government Annex, General Vehicles and Equipment Replacements, Remote Server Center Improvements, and the Livable Infrastructure for Everyone (L.I.F.E.) Miccosukee Sense of Place project.

#### **Funding Sources**

Chart 25.5 illustrates that 79% (\$3,653,751) of the FY 2024 General Government capital improvement budget is funded by the Capital Improvements Fund (Fund 305). The County Government Annex Fund (Fund 165) 12.0% (\$565,737) and Huntington Oaks Plaza Fund (Fund 166) 3% (158,750) is for improvements at those facilities. The Sales Tax Extension Fund (Fund 352) will fund 6% (\$258,600) for L.I.F.E. Miccosukee Sense of Place.

Chart 25.5
FY 2024 General Government Projects
by Funding Source

#### Managing Divisions

Table 25.9 shows Management Information Services will manage fifteen projects or 48%, while Facilities Management will manage eleven projects, or 35% of the General Government capital improvement projects for FY 2024. Engineering Services and Fleet Management will manage the remaining 17% of the FY 2024 General Government projects.

<u>Table 25.9</u>
FY 2024 General Government Projects
by Managing Division

Managing Division	# of Projects	FY 2024 Budget
Management Information Services	14	\$2,485,051
Facilities Management	11	\$1,814,307
Engineering Services	3	\$318,600
Fleet Management	2	\$18,700
Total	30	\$4,636,658

#### **Operating Budget Impacts**

Table 25.10 shows the estimated impacts that some General Government projects have on the operating budget. Impacts are shown in the fiscal year that they are anticipated to begin as well as the outyears that are affected by additional operating costs. These impacts are only estimates and subject to change.

#### Architectural & Engineering Services

**Engineering Services** Dept/Div: Comp Plan CIE Project: N/A Project #: 086011 Capital Improvement: N/A Level of Service Standard: Service Type: General Government N/A Status: **Existing Project** Strategic Priority: G2, G5

#### Project Description/Justification

This project is for architectural and engineering services that occur routinely throughout the year and are necessary to ensure the safety and consistency of operations in County buildings. Routine operating maintenance of County buildings occasionally involves the discovery of structural deterioration and mechanical or electrical failures that warrant an immediate investigative action and proposed course to solution from an architect or engineer.

#### **Project Description/Justification**

This project includes general maintenance and renovation projects such as landscaping, parking lot repairs and striping, building renovations and enhancements, replacing doors and windows, painting, and flooring. Some larger scale projects are funded across multiple fiscal years. To ensure some FY 2024 capital projects related to parks and facilities improvements and vehicle purchases are not delayed due to supply chain issues, \$1,477,000 in dedicated general revenue fund balances and ARPA revenue replacement was advanced funded in FY 2023 to support the following FY 2024 planned construction, repairs and maintenance:

FY 2024: \$1,477,000 - Replacement of sliding doors at various buildings; parking roll up doors/gates and tickets repairs; parking lot/garage repairs and striping; HSCP/Cooperative Extension building renovations; Bradfordville Community Center exterior siding replacement; Fort Braden Community Center renovations; EMS Logistics Building gutters; Cross Creek Center improvements; interior signage; Eastside Library lighting control; BL Perry Branch Library tile floor; and unanticipated general improvements.

FY 2025: \$1,670,000 - Replacement of sliding doors at various buildings; parking roll up doors/gates and tickets repairs; parking lot/garage repairs and striping; landscaping renewal; BL Perry Branch Library tile floor; Fort Braden Community Center renovations; interior signage; security upgrades and repairs; Cross Creek Center improvements and SOE awning coverage; and unanticipated general improvements.

FY 2026: \$546,386 - Replacement of sliding doors at various buildings; parking roll up doors/gates and tickets repairs; parking lot/garage repairs and striping; Fort Braden Community Center renovations; solar panel repair and maintenance; interior signage; security upgrades and repairs; Courthouse garage signage upgrades and unanticipated general improvements.

FY 2027: \$1,270,000 - Replacement of sliding doors at various buildings; parking roll up doors/gates and tickets repairs; parking lot/garage repairs and striping; landscape renewal; Fort Braden Community Center renovations; solar panel repair and maintenance; interior signage; security upgrades and repairs and unanticipated general improvements.

FY2028: \$920,000 - Replacement of sliding doors at various buildings; parking roll up doors/gates and tickets repairs; parking lot/garage repairs and striping; landscape renewal; Fort Braden Community Center renovations; EMS Logistics Building storm door; solar panel repair and maintenance; interior signage; security upgrades and repairs and unanticipated general improvements.

## County Compute Infrastructure

Dept/Div: **Management Information Services** Comp Plan CIE Project: N/A 076008 Capital Improvement: N/A Project #: Service Type: **General Government** Level of Service Standard: N/A Status: **Existing Project** Strategic Priority: G2

#### Project Description/Justification

This project is for the support of the County's technology infrastructure. This includes the following components:

Compute Environment: Includes Dell lease for file servers and storage and backup infrastructure - Lease payment and additional equipment for growth. \$300,000 each year for a five year lease beginning in FY 2024 - FY 2028.

Digital Phone System: Includes upgrade phones/infrastructure for the 15-year old Avaya enterprise phone and voicemail system supporting Leon County Government and the Constitutionals and required programming in the Avaya phone system to meet new 911 requirements.

Network Infrastructure: Includes continual maintenance and upgrading of the network connectivity of County offices to provide uninterruptible service with high speed and increased bandwidth to support existing and growing applications requiring graphics and document images. Redundant links to critical offices will continue to be implemented each year to prepare for disaster recovery and business continuity needs. This includes the maintenance of new firewalls with enhanced security features and annual cyber security assessments each summer.

Security: Security audit and managed services for security breaches and remediation will provide a proactive and comprehensive plan to defend against and respond to cyber threats and includes Proofpoint DLP (data loss prevention) and Cyber Security Review.

## >>> Courtroom Technology

**Management Information Services** Dept/Div: Comp Plan CIE Project: N/A 076023 Capital Improvement: N/A Project #: Level of Service Standard: Service Type: **General Government** N/A Status: **Existing Project** Strategic Priority: G2

#### Project Description/Justification

This project is for technology needs for courtrooms, such as: sound system replacements, computers, and other technology needs of the Judiciary and Court Administration. The outyear budgets (FY 2024 - FY 2028) include funding for the maintenance of technology equipment and replacement of computers in the courtrooms as well as website redesign. Also included are copier hardware costs that Counties are required to cover under Article V state court funding requirements.

## **General Vehicle & Equipment Replacement**

Dept/Div: Fleet Management Comp Plan CIE Project: N/A 026003 Capital Improvement: N/A Project #: Service Type: **General Government** Level of Service Standard: N/A Status: **Existing Project** Strategic Priority: G2, EN4

#### Project Description/Justification

This project is for the replacement of County vehicles and equipment. Vehicles and equipment are replaced based on a factor of the number of miles, operating hours and repair costs to determine if it is more cost effective to replace the vehicle rather than continue maintaining the vehicle or equipment. It is estimated that the vehicles/equipment being replaced will generate \$9,000 in surplus sales. To ensure some FY 2024 capital projects related to parks and facilities improvements and vehicle purchases are not delayed due to supply chain issues, \$181,144 in dedicated general revenue fund balances and ARPA revenue replacement was advanced funded in FY 2023 to support the following FY 2024 replacement schedule:

Department	Year/Make Description	Mileage/Hour	Original Cost	Repair Cost to Date	Estimated Replacement Cost
DSEM	2006 Ford Explorer	119,365	\$21,848	\$13,909	\$50,000
Parks and Recreation	2006 Rino Mower	N/A	\$17,950	\$18,162	\$38,000
Facilities	2006 Ford F-150	134,470	\$20,972	\$17,271	\$45,000
Parks and Recreation	2003 John Deere Groomer	2,440	\$8,787	\$3,209	\$33,144
Parks and Recreation	2012 Grasshopper Zero Turn Mower	1,838	\$12,615	\$13,755	\$15,000

#### Strategic Initiative

Increase the number of fully electric vehicles in the County's fleet by 500%. (T8)

#### **Financial Summary**

Funding Source	Life To Date FY 2022	Adjusted Budget FY 2023	Year To Date FY 2023	FY 2024 Budget	FY 2025 Planned	FY 2026 Planned	FY 2027 Planned	FY 2028 Planned	5 Year Total	Total Project <u>Cost</u>
305 Capital Improvements	5,782,466	1,373,558	314,755	0	598,000	722,859	935,425	704,386	2,960,670	10,116,694
•	5,782,466	1,373,558	314,755	0	598,000	722,859	935,425	704,386	2,960,670	10,116,694

#### Policy/Comprehensive Plan Information

In accordance with the Green Fleet Policy, each vehicle and equipment replacement is evaluated to make every effort to purchase and use the lowest emission vehicle or equipment item possible, while taking into account the vehicle's life cycle costs, miles per gallon, life cycle environmental impacts, and ability to support Leon County's operation and services.

#### **Operating Budget Impact**

There are no new operating costs associated with replacing vehicles and equipment. The applicable fuel, maintenance, and insurance costs have already been budgeted.

## | Justice Information System (JIS) Upgrade

Dept/Div: **Management Information Services** Comp Plan CIE Project: N/A Project #: 076065 Capital Improvement: N/A Level of Service Standard: Service Type: **General Government** N/A Status: **Existing Project** Strategic Priority: G2

## Project Description/Justification

This project creates a sinking fund for the upgrade of the County managed Justice Information System (JIS) estimated at \$5 million over the next several fiscal years. JIS is a custom in-house program, that supports all facets of criminal data for multiple agencies. The current system is older and the software requires modernization to stay current with today's technologies. This system supports information for the courts and criminal justice system. The complex system supports all activities from Law Enforcement processes (such as warrants, arrest, jail management), Court processes (e.g. first appearance and court docketing), State Attorney tracking & processes, Public Defender tracking and processes, Clerk processes, and Probation and Pretrial Release. JIS is a comprehensive system with extensive modules accessed by each of these entities. The jail management module solution has been identified and is partially supported by a \$500,000 FDLE grant and will address Corrections/Detention licensing. Additional licensing includes modules for the Clerk's Office which will be partially supported by available Clerk funding for the Clerk's portion of the solution (Clericus).

#### L.I.F.E. Miccosukee Sense of Place

Dept/Div: **Engineering Services** Comp Plan CIE Project: N/A 091004 Capital Improvement: N/A Project #: Service Type: **General Government** Level of Service Standard: N/A Status: **Existing Project** Strategic Priority: Q1, Q2, Q5

## Project Description/Justification

In November 2014, Leon County residents approved a referendum providing a second extension of the One-Cent Local Option Sales Tax beginning in FY 2020 for 20 years. Blueprint 2020 provides funding for Livable Infrastructure for Everyone (L.I.F.E.) projects. L.I.F.E. projects are an allocation of 2% of the Blueprint 2020 Sales Tax Extension funding and will address Leon County's rural area basic infrastructure needs.

This initiative, which is a priority of the Board as reflected in Strategic Initiatives and the previous Five-year Strategic Plan, is a catalytic project that will identify opportunities to strengthen the connection between citizens and the rural Miccosukee community. The initiative reflects a partnership between the County and Miccosukee area citizens to address long-standing community needs by making extraordinary improvements in the community and providing an outlet for proactive and positive change. At the April 24, 2018 budget workshop, the Board adopted the Miccosukee Rural Community Sense of Place Plan and approved the establishment of the Miccosukee Citizens Working Group. Plans have been developed for the renovation of the Concord School building to create a new Community Center facility.

The County was successful in receiving over \$4.6 million in direct federal appropriation, including a CDBG-CV grant for this project, thereby reducing the amount of future LIFE funds necessary to fund this project. Previous LIFE allocations have already provided the required match for the federal grants. The project is currently going out for bid and a contingency budget of \$258,600 of LIFE funds has been appropriated in FY 2024 pending final bid award.

Dept/Div: **Management Information Services** Comp Plan CIE Project: N/A Project #: 076066 Capital Improvement: N/A Level of Service Standard: Service Type: General Government N/A Status: **Existing Project** Strategic Priority: G2

#### Project Description/Justification

This project is for recurring large application upgrades and replacements to maintain the current infrastructure of the County and allow for current security patches to be applied. These currently include:

Infor Public Sector (Workorder system for Public Works & Big Blue Button application)

Paradigm (Solid Waste)

AppXtender (countywide)

PSI Capture (countywide KOFAX replacement) an AI-Powered OCR Tool which will be used to streamline the capturing of metadata during document management processes.

This plan is based on a multi-year plan which will allow financing of the upgrades, with the ability to keep these applications current or replace them with new solutions, as needed.

This project has an annual impact on the Management Information Services division's budget related to data plans for the mobile devices. These impacts are subsequently charged to the applicable department's communications operating budget.

## >>> Public Defender Technology

Dept/Div: **Management Information Services** Comp Plan CIE Project: N/A 076051 Capital Improvement: N/A Project #: Level of Service Standard: Service Type: **General Government** N/A Status: **Existing Project** Strategic Priority: G2

#### Project Description/Justification

This project is for technology needs for the Public Defender's Office. As required by Article V, the County must cover hardware, software, and services for computer automation. Covered services are for STAC (the Public Defender's case management software) and integration to the Justice Information System (JIS), which is the criminal case management system for Leon County. This allows case information to auto populate and flow back to JIS so that others in the justice community have access to shared information in one place. The STAC portion of this project was moved from the OIT operating budget to this project to consolidate technology expenses for the Public Defender's Office.

#### Project Description/Justification

The number of burial plots available at the Leon County Serenity Cemetery for state mandated unclaimed or indigent burials will need to be expanded in the future to ensure continued burial capacity. Additional plots, access and stormwater improvements are planned to provide the same level of service in future years. This project entails site clearing, road construction, fencing, and stormwater conveyance.

Approximately 6.7 acres of the 8.7 acres of the Serenity Cemetery consists of undeveloped land. This project would improve this area by constructing two access points, internal roadway for traffic circulation, stormwater conveyance for the added impervious area and provide enough cleared land to establish an additional 1,142 burial plots. The northern portion of the Cemetery was expanded in FY 2018 to include an additional 221 burial plots, and all main access roads were built. Funding in FY 2026 is for work including improvements to the site's drainage system, access roads, and fences for an additional 480 plots. Funding in FY 2028 will complete the remaining roadway, fencing, and clearing for the remaining 441 plots.

•	0	0	0	0	0	190,000	0	190,000	380,000	380,000

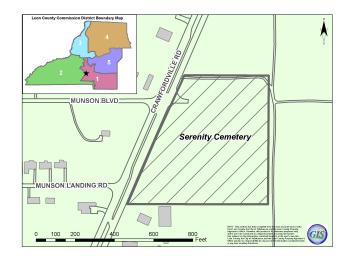

#### Policy/Comprehensive Plan Information

In accordance with Policy 98-25 "Disposition of Unclaimed and Indigent Bodies" and in accordance with Florida Statutes 406.50 and 406.52, Leon County has the authority to establish policies and procedures for the burial or cremation of indigent persons or unclaimed persons whose deaths occurred, or whose remains were found in the county.

#### **Operating Budget Impact**

Funding Source	FY 2024 Budget	FY 2025 Planned	FY 2026 Planned	FY 2027 Planned	FY 2028 Planned
123 Stormwater Utility	800	500	500	800	0
	800	500	500	800	

This project has operating impacts for the Stormwater Management program of Operations related to maintenance and permitting for the stormwater pond. There are annual operating impacts for the Facilities Management division related to mowing and miscellaneous maintenance.

## Solar Arrays on County Buildings

Dept/Div: Facilities Management Comp Plan CIE Project: N/A Project #: 086081 Capital Improvement: N/A Level of Service Standard: Service Type: General Government N/A EN3, EN4 Status: **Existing Project** Strategic Priority:

#### Project Description/Justification

As part of the County's Integrated Sustainability Action Plan (ISAP) approved at the April 23, 2019 Budget Workshop, a budget was established to increase the County's use of renewable energy by expanding solar on County buildings. The ISAP Goal recommends increasing renewable energy capacity on County facilities by 30% by 2030.

#### Strategic Initiative

Reduce Greenhouse Gas Emissions stemming from County operations by 25%. (T5) Double solar power generation at County Facilities. (T6)

## >>> State Attorney Technology

Dept/Div: **Management Information Services** Comp Plan CIE Project: N/A 076047 Capital Improvement: N/A Project #: Level of Service Standard: Service Type: **General Government** N/A Status: **Existing Project** Strategic Priority: G2

#### Project Description/Justification

This project is for technology needs for the State Attorney's Office. As required by Article V, the County must cover hardware, software, and services for computer automation. Covered services are for STAC (which is the State Attorney's case management software) and integration to the Justice Information System (JIS), which is the criminal case management system for Leon County. This allows for case information to auto populate within STAC and allow updates within STAC to update IIS so others in the justice community have access to shared information. The STAC portion of this project was moved from the OIT operating budget to this project to consolidate technology expenses for the State Attorney's Office.

## Wer Computer Upgrades

Dept/Div: **Management Information Services** Comp Plan CIE Project: N/A 076024 Capital Improvement: N/A Project #: Level of Service Standard: Service Type: **General Government** N/A Status: **Existing Project** Strategic Priority: G2

#### Project Description/Justification

This project is for the replacement of aged-out user computers, printers, and peripherals. A replacement schedule is important due to advances in software, deterioration of hardware, the inability to obtain replacement parts for old equipment and the increased cost of maintenance of old equipment. Most computers are on a five-year replacement cycle plan. Users with specialty software needs, such as engineers and GIS staff, are in a three-year replacement cycle. The computers that are replaced every three years are recycled to County users with standardized needs. Pursuant to County Policy, older machines are recycled to the Goodwill's electronics store.

As part of the County's plan to utilize \$1.9 million of American Rescue Plan Act (ARPA) funds for the continuity of operations, funding was allocated in FY 2021 for the County to enhance remote working capabilities by acquiring and proactively deploying additional laptops, configured with secure virtual desktop capability, for use throughout the public health emergency. These funds were used for the acquisition of approximately 850 laptops, which includes 650 laptops to be deployed across County work areas and an additional 200 laptops to be deployed across the Constitutional and Judicial Offices. In addition, these new laptops and existing laptops owned by the County are enhanced with the new secured virtual desktop solution to provide additional security across these devices for remote working capabilities.

Beginning in FY 2021, to maintain the five-year PC replacement cycle, and facilitate preparedness when other natural disasters, fire, or other situations require staff to work remote, a plan was developed to migrate all Senior Management staff from PCs to tablets/laptops, followed by other key staff by deploying 50 devices at the time which will have all Senior Managers on mobile devices within four years. With the supplemental ARPA funds, the projected cost is an estimated \$350,000 to \$450,000 per year.

## >>> Voting Equipment Replacement

Dept/Div: Miscellaneous Comp Plan CIE Project: N/A Project #: 096028 Capital Improvement: N/A **General Government** Level of Service Standard: N/A Service Type: Status: **Existing Project** Strategic Priority: G3

#### Project Description/Justification

This project is for the Supervisor of Elections non-voting machine equipment. This project funds the purchase or replacement of voting equipment including privacy booths, precinct signage, ballot tabulators, audit and absentee ballot scanners, electronic pollbooks, and ballot demand printers. With the system heavily dependent on technology, it is important to anticipate equipment needs to assure smooth continuation of operations. This includes replacing equipment that has reached the end of its useful life, as well as expanding inventory as the number of registered voters in Leon County continues to grow.

## »Health & Safety Overview

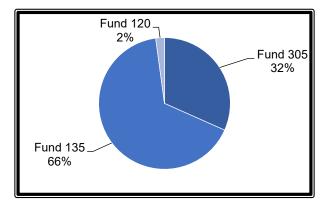

#### Overview

The Health & Safety section contains capital improvement projects designed to facilitate the provision of emergency medical and other public safety services provided by Leon County government. Major Health & Safety capital projects funded in FY 2024 include the Sheriff Facilities Capital Maintenance, Emergency Medical Services Vehicle and Equipment, and the Public Safety Complex.

#### **Funding Sources**

Chart 25.6 illustrates that Emergency Medical Services MSTU (Fund 135) funds 66% (\$2,520,000) and Capital Improvement (Fund 135) funds 32% (\$1,205,000) of the Health & Safety capital improvement budget in FY 2024. The remaining 2% is funded from the Building Inspection Fund (\$81,600) to support technology needs.

Chart 25.6
FY 2024 Health & Safety Projects
by Funding Source

## Managing Divisions

Table 25.11 shows Management Information Services will manage three projects for 37%, while Fleet Management and Facilities Management will each manage two projects for 50% of the Health & Safety projects. Engineering Services will manage a single project, which accounts for the remaining 13% of the Health & Safety projects.

Table 25.11
FY 2024 Health & Safety Projects
by Managing Division

Managing Division	# of Projects	FY 2024 Budget
*Engineering Services	1	\$0
Fleet Management	2	\$2,495,000
Facilities Management	2	\$755,000
Management Information Services	3	\$556,600
Total	8	\$3,806,600

<sup>\*</sup>This project was advanced funded in FY 2023 and will be carried forward into FY 2024.

#### **Operating Budget Impacts**

Table 25.12 shows the estimated impacts that some Health & Safety projects have on the operating budget. Impacts are shown in the fiscal year which they are anticipated to begin as well as the outyears that are affected by additional operating costs. These impacts are only estimates and subject to change.

## Emergency Medical Services Vehicles & Equipment Replacement

Dept/Div: Fleet Management Comp Plan CIE Project: N/A 026014 Capital Improvement: N/A Project #: Level of Service Standard: Service Type: Health & Safety N/A Status: **Existing Project** Strategic Priority:  $Q_3$ 

#### Project Description/Justification

This project is for the acquisition of Emergency Medical Services ambulances, vehicles and equipment. In accordance with the Green Fleet Policy, each vehicle and equipment replacement is evaluated to make every effort to purchase and use the lowest emission vehicle or equipment item possible, while taking into account the vehicle's life cycle costs, miles per gallon, life cycle environmental impacts, and ability to support Leon County's operation and services. Emergency Medical Services ambulances are replaced every 5 to 6 years. It is estimated that the vehicles/equipment being replaced will generate \$42,000 in surplus sales. The following is the FY 2024 replacement schedule:

Department	Year/Make Description	Mileage/Hour	Original Cost	Repair Cost to Date	Estimated Replacement Cost
EMS	2006 Haulmark Trailer	N/A	\$1,000	\$2,342	\$15,000

#### Project Description/Justification

This project is for facility maintenance, repairs and upgrades of the Public Safety Complex. These costs are split 50/50 with the City of Tallahassee. Facilities building projects include the following: replace in-row cooling units in the Data Center, replace and/or overhaul perimeter gates, building automation upgrades, gutter repairs parking lot repairs and replacing the building switchgear. Technology related projects for the Public Safety Complex are now reflected in Project #076069.

#### Project Description/Justification

This project is for technology maintenance, repairs and upgrades at the Public Safety Complex. These costs are split 50/50 with the City of Tallahassee. This project covers technological repair and maintenance needs and designates future funding to replace the Emergency Operations Center sound system estimated at \$300,000. Budget also include funds for complete replacement of the video wall, estimated to be \$2 million. The sound system and video walls are due to be replaced to meet the current technological infrastructure. Public Safety Complex technology projects were previously funded in Project #096016. However, now only projects related to building improvements for the Public Safety Complex are reflected in Project #096016.

#### Project Description/Justification

This project is for repair and maintenance of structures at the Leon County Sheriff Facilities including the Sheriff Administration Building, Evidence Building and the Detention Facility Complex. To ensure some FY 2024 capital projects related to parks and facilities improvements and vehicle purchases are not delayed due to supply chain issues, \$2,445,816 in dedicated general revenue fund balances and ARPA revenue replacement was advanced funded in FY 2023 to support the following FY 2024 planned construction, repairs and maintenance. The FY 2024 budget also contemplates a transfer of \$3,591,588 in original FY2000 Sales Tax funds during the carry forward process to fund the remaining project balance.

# »Physical Environment Overview

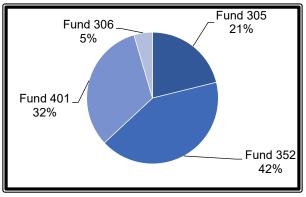

#### Overview

The Physical Environment section contains capital improvement projects designed to facilitate the provision of services by the different branches of Leon County government with regards to stormwater management, improvements water quality and solid management. Major Physical Environment capital projects funded in FY 2024 include Stormwater Infrastructure Preventative Maintenance, Incremental Basemap Update, Permitting Software Enhancements, Solid Waste Heavy Equipment and Transfer Station Heavy Equipment.

#### **Funding Sources**

Chart 25.7 illustrates that the Sales Tax Extension (Fund 352) funds 42% while the Capital Improvement (Fund 305) funds 21% (\$1,071,800) of the Physical Environment projects funded in FY 2024. Solid Waste Management (Fund 401) funds 32% (\$1,640,000). Gas Tax (Fund 306) accounts for 5% (\$231,256) of Physical Environment funding.

Chart 25.7
FY 2024 Physical Environment Projects
by Funding Source

# **Managing Divisions**

Table 25.13 shows Engineering Services will manage the majority (43%) of the Physical Environment capital with seven projects. Fleet Management will manage five projects for a total of 24%. Management Information Services and Solid Waste will each manage three projects, and Operations will manage one project which accounts for the remaining 33% of the Physical Environment capital projects.

Table 25.13
FY 2024 Physical Environment Projects by Managing Division

Sy managing 2 tyloron									
Managing Division	# of Projects	FY 2024 Budget							
Engineering Services	9	\$2,356,256							
Fleet Management	5	\$1,090,000							
Management Information Services	3	\$971,800							
Solid Waste	3	\$550,000							
Operations	1	\$100,000							
Total	21	\$5,068,056							

# **Operating Budget Impacts**

There are no estimated impacts from Physical Environment projects on the operating budget for FY 2024.

<sup>\*</sup>Funding for projects not completed in FY 2023 will be included in the FY 2023 to FY 2024 carry forwards to provide continued project funding.

Fiscal Year 2024 Physical Environment

# **Baum Road Drainage Improvements**

Dept/Div: **Engineering Services** Comp Plan CIE Project: N/A 054011 N/A Project #: Capital Improvement: **Physical Environment** Level of Service Standard: N/A Service Type: Status: **Existing Project - Carryforward** Strategic Priority:  $Q_3$ 

#### Project Description/Justification

This project is for drainage improvements and wetland mitigation to reduce the flooding of Baum Road and associated stream erosion. The drainage way through Winfield Forest subdivision remained natural during the subdivision development. Uphill development north of Winfield Forest on both sides of Baum Road, including I-10, generates increased flows, which overwhelm the Baum Road cross-drain during heavy storms. This project was planned for construction in FY 2021, however, due to COVID-19 and budget balancing strategies, this project was deferred until FY 2022. However, to bolster the transportation capital program, and fund critical road/flooding projects that were delayed or not considered because of COVID, \$2.7 million in American Rescue Plan Act (ARPA) replacement revenue funding was recommended to shore up the transportation capital program of which \$926,000 was allocated for this project.

This project is funded in three stages that include:

- (1) a feasibility study with community input (FY 2019 FY 2020);
- (2) design and permitting (Spring FY 2023);
- (3) construction begins (Fall FY 2023).

#### Strategic Initiative

(EN1) Ensure County's water quality and stormwater regulations, programs and projects are evaluated and implemented holistically to advance the County's adopted strategic priority: to protect the quality and supply of our water. (2022-16)

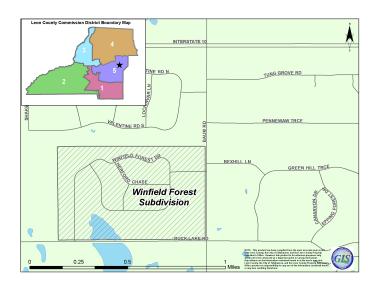

#### Financial Summary

# Blueprint 2020 Water Quality & Stormwater

Dept/Div: **Engineering Services** Comp Plan CIE Project: N/A 067003 Project #: Capital Improvement: N/A **Physical Environment** Level of Service Standard: N/A Service Type: **Existing Project** Strategic Priority: EN<sub>1</sub> Status:

#### Project Description/Justification

In November 2014, Leon County residents approved a referendum providing a second extension of the 1 Cent Local Option Sales Tax beginning in FY 2020 for 20 years. This allocation of \$85 million is for water quality and stormwater funding (split 50/50 between the City and the County) of its 80% share of the Sales Tax Extension. A total of \$42.5 million is set-aside for water quality protection and stormwater mitigation in Leon County, or an estimated \$2,125,000 per year. Over the next five years, these funds are dedicated as state match funds for sewer projects.

Local match funds will be required for construction of the Woodville Central Sewer System. The Design RFP was released on 2/2/2018, and the actual design started in February 2019 following grant scope modification. Per the preliminary project schedule, the Phase 1A final design has been completed and the bid was awarded in February 2023. Construction of Phase 1A is expected to commence Spring 2023. Depending on additional grant funding, other phases will be completed between FY 2024 to FY 2026. The Board also directed staff to continue to seek future Springs Restoration grant funds for the Northeast Lake Munson and the Belair/Annawood areas.

On February 13, 2018, the Board accepted the grant from the springs restoration grant program for Northeast Lake Munson and Belair/Annawood sewer system projects. Belair/Annawood was completed in the summer of 2023 and Northeast Lake Munson is currently under construction.

Leon County is committed to sewer infrastructure improvements, and has invested millions of dollars in the Primary Spring Protection Zone septicto-sewer program. Total funding either spent or included in the five-year approved capital improvement program (CIP) is approximately \$63 million, which will provide sewer to 709 homes currently served by septic tanks. Current funding for these projects consists of State grant funds, County matching funds and American Rescue Plan Act (ARPA) funds for sewer infrastructure improvements. Based on funding availability, future phases include an additional 819 lots that will be serviced by sewer. Due to increases in construction costs, the County is seeking additional matching funds from FDEP to assist in funding planned sewer projects in the Primary Springs Protection Zone. Based on recent construction bids, funds are currently not available to complete the construction of all planned Primary Spring Protection Zone sewer projects without additional matching support from the State and/or Federal governments.

#### Strategic Initiative

(EN1) Ensure County's water quality and stormwater regulations, programs and projects are evaluated and implemented holistically to advance the County's adopted strategic priority: to protect the quality and supply of our water. (2022-16)

#### Project Description/Justification

At the April 2016 budget workshop, the Board approved working with the state regarding alternative On-site Sewage Treatment and Disposal Systems (OSTDS) technologies for nitrate removal. The alternative technologies can be utilized where it is not cost-effective or technically feasible for central sewer. The grant provides funds to Leon County for replacement of residential OSTDS with the new technologies, which will be monitored post-construction for water quality improvement and operational cost analysis after installation.

This project is fully funded by the Florida Department of Environmental Protection Springs Restoration Grant Program. No grant match is required.

This project is for the construction of advanced passive on-site sewage treatment and/or disposal systems in the Wilkinson Woods subdivision. System installation began in Summer 2020. More than 53 systems have been replaced to date.

#### Strategic Initiative

#### Fords Arm - Lexington Pond Retrofit

Dept/Div: **Engineering Services** Comp Plan CIE Project: N/A 063005 Project #: Capital Improvement: N/A Service Type: **Physical Environment** Level of Service Standard: N/A Status: **Existing Project - Carryforward** Strategic Priority: EN1, EN2

#### Project Description/Justification

This project is partially funded by the \$50 million (split 50/50 between the City and the County) set aside by Blueprint for stormwater and water quality retrofits from the first Sales Tax Extension.

This project is for water quality treatment and flow attenuation for stormwater entering Fords Arm of Lake Jackson from the Lexington Branch. The project provides a combination of attenuation, water quality treatment and flow way improvements in the contributing basin south and east of Fords Arm. This project includes drainage improvements at Meridian Road, Lexington Road and Timberlane Road which will help prevent flooding along those roads. Construction of Linene Woods Phase I between Hunter's Crossing subdivision and the wetland north of John Hancock was completed in FY 2020. The Meridian Road crossing was completed in FY 2021. The Timberlane Road cross drain upgrade is under design.

#### Strategic Initiative

(EN1) Ensure County's water quality and stormwater regulations, programs and projects are evaluated and implemented holistically to advance the County's adopted strategic priority: to protect the quality and supply of our water. (2022-16)

#### Project Description/Justification

This project is for the funding of the City of Tallahassee and Leon County Geographic Information System Interlocal Project. Tallahassee-Leon County Geographic Information System (TLC GIS) was created in May, 1990 when the City of Tallahassee, Leon County, and the Property Appraiser's Office entered into an Interlocal Agreement. The mission of TLC GIS is to:

- -Develop a common base map
- -Promote the sharing of resources
- -Reduce redundancy of data collection and creation
- -Provide a mechanism to maintain the base map and other data layers
- -Encourage enterprise information management solutions
- -Enhance decision making for public officials.

This project includes the following items for FY 2024, of which 62% is reimbursed by the City of Tallahassee:

\$151,000 for Environmental Systems Research Institute, Inc. cloud computing environment, (ESRI) Enterprise Licensing Agreement (ELA): ESRI is the primary software provider for GIS software. The license covers web servers, the cloud computing environment and desktop licensing. Annual analysis has shown that the enterprise license saves money over the alternative of buying individual licenses.

\$87,000 for the compute/storage and backup environment: This funding is utilized to support the ongoing costs of the shared infrastructure environment with Management Information Systems.

\$81,000 ESRI services for COT electric utility outage map (100% repayment from City)

\$30,000 ESRI services for shared interlocal projects.

#### Policy/Comprehensive Plan Information

Geographic Information System City of Tallahassee/Leon County Interlocal Agreement (1990)

The Comprehensive Plan mandates that a series of map layers be compiled and maintained for use in Comprehensive Plan implementation.

The environmental component of both the City and County land development ordinances contain clauses mandating that protected natural features be mapped pursuant to applications for development.

The Florida Department of Revenue requires that all property appraisers' offices in the State of Florida compile and maintain digital Cadastres (a register of property showing the extent, value, and ownership of land for taxation) that meet specific guidelines governing methodologies to be used and the layers to be compiled. Required layers include platted lots, tax parcels, rights-of-way and legal dimensions.

# GIS Incremental Basemap Update

Dept/Div: **Management Information Services** Comp Plan CIE Project: N/A 076060 Capital Improvement: Project #: N/A Service Type: **Physical Environment** Level of Service Standard: N/A Status: **Existing Project** Strategic Priority: G2

#### Project Description/Justification

This project is for the incremental update of the Tallahassee-Leon County Geographic Information System, TLC GIS, basemap. The basemap includes orthophotography, planimetrics and a digital elevation model with contours. These elements are essential in providing timely and accurate basemap information which provides positional control for other critical Geographic Information System information and the analysis opportunities they support. They are the foundation for geo-referencing (tying to coincident geographic features for accurate and reliable referencing) many of the Geographic Information System data layers.

In June 2008, the Florida Department of Revenue was directed under Chapter 195.002 Florida Statutes, to provide each County Property Appraiser's Officer with digital orthophotography every three years and charge each county office for the cost of that service and product delivery. The City also contributes funds to this project. In working with the vendor and leveraging the latest technology, TLC GIS was successful in developing a new methodology for collecting, compiling and releasing the basemap data in compliance with Chapter 195.002 Florida Statutes. TLC GIS also obtains additional oblique and satellite imagery to support efforts related to public safety, property assessment and non ad-valorem assessments which this funding covers.

The basemap data acquisition is captured and delivered on a rolling three-year basis, where certain products are captured, compiled, and delivered each year over that three year period. Aerial imagery of some type is designed to be provided each year. This ensures the ability for change detection which is vital to many business activities throughout the County. Methodology and products are planned and reviewed each year to take advantage of new technology and efficiencies. This ensures the best basemap products and value to end users.

The aerial flyover, LiDar flyover, and ground control survey work was completed in FY 2018. Photography and data processing of updated layers was completed in FY 2019. A new aerial flyover is planned to begin in FY 2024.

#### Policy/Comprehensive Plan Information

In accordance with the Green Fleet Policy, each vehicle and equipment replacement will be evaluated to make every effort to purchase and use the lowest emission vehicle or equipment item possible, while taking into account the vehicle's life cycle costs, miles per gallon, life cycle environmental impacts, and ability to support Leon County's operation and services.

#### **Operating Budget Impact**

There are no new operating costs associated with replacing vehicles and equipment. The applicable fuel, maintenance, and insurance costs have already been budgeted.

# **W** Household Hazardous Waste Improvements

Dept/Div: Solid Waste Comp Plan CIE Project: N/A Project #: 036019 Capital Improvement: N/A **Physical Environment** Level of Service Standard: Service Type: N/A Status: **Existing Project** Strategic Priority: EN3

#### Project Description/Justification

This project provides funds for ongoing maintenance, repairs and improvement of the Household Hazardous Waste Center at the Solid Waste Management Facility.

On May 12, 2015, the Board approved closing the landfill at the Solid Waste Management Facility on Apalachee Parkway in order to complete the Master Plan for Apalachee Regional Park. However, Hazardous Waste activities will continue at the location until Landfill closure construction is complete. Site study to occur in FY 2026. Design for the relocation will begin in FY 2027.

## Strategic Initiative

Divert 3 million pounds of household hazardous waste from the landfill (T7)

#### L.I.F.E. Stormwater and Flood Relief

Dept/Div:	<b>Engineering Services</b>	Comp Plan CIE Project:	N/A
Project #:	091009	Capital Improvement:	N/A
Service Type:	Physical Environment	Level of Service Standard:	N/A
Status:	Existing Project	Strategic Priority:	EN1

#### Project Description/Justification

In November 2014, Leon County residents approved a referendum providing a second extension of the 1 Cent Local Option Sales Tax beginning in FY 2020 for 20 years. Blueprint 2020 provides funding for Livable Infrastructure for Everyone (L.I.F.E.) projects. The L.I.F.E. projects are an allocation of 2% of the Blueprint 2020 Sales Tax Extension funding. L.I.F.E. projects will address Leon County rural area basic infrastructure needs.

Leon County's stormwater maintenance program protects citizens and the environment by improving water quality and minimizing flooding. Consistent with County policy, the Comprehensive Plan, state law, and the requirements of the County's federal National Pollutant Discharge Elimination System (NPDES) permit, Leon County conducts a variety of stormwater projects to improve existing stormwater management facilities' treatment capacities or volumes for rate control; enhance inflow, outfall, or discharge systems' conveyance capacities; and provide for erosion control. However, even with proper maintenance, given the limited resources of the County, there are long-standing localized flooding problems that do not have funding programmed. This budget is to fix a long-standing flooding issues occurring on Benjamin Chaires Road. 2,000 linear feet along Benjamin Chaires Road overtops during high volume flooding events preventing access by residents and emergency vehicles. This project would elevate the roadway and excavate compensating volume to eliminate the overtopping. Consistent with the previous five year L.I.F.E. program schedules, existing funding will address the preliminary design for Benjamin Chaires Road and outyear funding is for construction.

#### Strategic Initiative

(EN1) Ensure County's water quality and stormwater regulations, programs and projects are evaluated and implemented holistically to advance the County's adopted strategic priority: to protect the quality and supply of our water. (2022-16)

#### **Lake Henrietta Renovation**

Dept/Div: **Engineering Services** Comp Plan CIE Project: Yes 061001 Capital Improvement: Project #: N/A **Physical Environment** Level of Service Standard: N/A Service Type: Status: **Existing Project - Carryforward** Strategic Priority: EN<sub>1</sub>

#### Project Description/Justification

This project involves the major restoration of the 21-year old Lake Henrietta stormwater facility on Springhill Road. The pond was constructed with its northern five acres excavated as a sump to capture and concentrate the sediment from the west, central and east drainage ditches. Funding was requested as part of a legislative federal appropriation request to support design and permitting, hydraulic dredging, and hauling and disposal of approximately 20,000 cubic yards of sediment. In March of 2022, the County was notified it was approved for a federal FY 2022 appropriation of \$1.6 million with a local match of \$400,000 which was budgeted in FY 2023. A grant agreement is expected to be executed in Summer 2024.

The project is divided into three phases: Phase 1 - Property acquisition of spoils handling site; Phase 2 - design and permitting of adjacent spoil handling site (FY 2023); followed by Phase 3 - hydraulic dredging and disposal off-site (FY 2024).

#### Strategic Initiative

(EN1) Ensure County's water quality and stormwater regulations, programs and projects are evaluated and implemented holistically to advance the County's adopted strategic priority: to protect the quality and supply of our water. (2022-16)

309 Sales Tax - Extension	72,209	0	0	0	0	0	0	0	0	72,209
	72,209	640,000	0	0	0	0	0	0	0	712,209

#### Policy/Comprehensive Plan Information

Comprehensive Plan Reference: STORMWATER MANAGEMENT GOALS, OBJECTIVES AND POLICIES: Goal 1: Provide a stormwater management system which protects the health, welfare and safety of the general public by reducing damage and inconvenience from flooding and protects surface water and groundwater quality. Comprehensive Plan Levels of Service for Stormwater conveyance requires that no floodwaters enter a residence in a 100-year storm.

#### Operating Budget Impact

Removal of the sediment will reduce Division of Operations expenditures to maintain flows into the facility and is necessary for permit compliance and enhance water quality within the Lake Munson basin.

Lake Henrietta

#### >>> Landfill Closure

Dept/Div: Solid Waste Comp Plan CIE Project: N/A 036043 Capital Improvement: N/A Project #: Service Type: **Physical Environment** Level of Service Standard: N/A Status: **Existing Project - Carryforward** Strategic Priority: EN3

#### Project Description/Justification

This project is for the closure of the Solid Waste Landfill on Apalachee Parkway.

On May 12, 2015, the Board approved the closure of the Solid Waste Landfill on Apalachee Parkway. In October 2017, the Board approved the Solid Waste Closure, Phase I, for a contractor to haul 222,200 cubic yards of material from the F.A. Ash Borrow Pit to the landfill site. Household Hazardous Waste, Yard Waste, and other activities will continue at the location. Landfill Closure Quality Construction Assurance will continue to be provided throughout the final closure process. The remaining site will be converted and become part of the Apalachee Regional Park. However, once the landfill is closed, the County will maintain and monitor the site for 30 years.

Phase I was completed in March 2018. Phase II construction was suspended in September 2019 to ensure the landfill was being closed in the most environmentally sensitive manner. A new RFP for Solid Waste Management Professional Services, including the Landfill Closure Design Evaluation and Finalization, was awarded in 2022. Landfill Closure design viability study has been completed and redesign options provided for implementation. Following the approval of the report recommendations, design services are anticipated to be complete in Fall 2023. Construction is anticipated to begin in 2024.

The two leachate pump station replacement project is now included as a part of the Landfill Closure project. The \$300,000 for this project was moved from the Landfill Improvement (036002) project to the Landfill Closure (036043) project to maximize project delivery.

# NE Lake Munson Septic to Sewer

Dept/Div: **Engineering Services** Comp Plan CIE Project: N/A 062008 Capital Improvement: N/A Project #: Level of Service Standard: Service Type: **Physical Environment** N/A Status: **Existing Project - Carryforward** Strategic Priority: EN1, EN2

#### Project Description/Justification

During the development of the grant agreements and discussion of future projects, priorities, and a shared desire to improve water quality in the region, the Florida Department of Environmental Protection (FDEP) proposed an ongoing financial partnership whereby the state would prioritize and match local funds for future Leon County projects. As a result, staff developed a tentative seven-year improvement plan that continues to implement the County's commitment for water quality and springs protection projects in Leon County. The local match for the future water quality grants is made through the County's share of the \$42.5 million Blueprint 2020 Water Quality and Stormwater Improvement allocation. The "Tentative Leon County Water Quality and Springs Protection Improvement Plan" is estimated to result in the leveraging of an additional \$20.4 million in state matching grants through FY 2024.

This project will provide the design and construction of the central sewer collection system for Yon's Lakeside Estates and Idlewild neighborhoods. This will include lift stations, service connection to approximately 220 single family residences and commercial properties, removal of septic tank systems, and the transmission system connecting to the City of Tallahassee's sewer system. The project will eliminate the onsite systems which will result in a significant reduction in nutrient load leaching into the Florida aquifer in the Wakulla Springs contribution area. The final engineering design and permitting process was complete in October 2022, with Construction beginning in February 2023.

This project is funded by a \$2,750,000 grant from the Florida Department of Environmental Protection (FDEP), with match funding of \$2,750,000 from the County. A grant amendment with FDEP to increase the grant award by an additional \$3,700,000 was approved by the Board in September 2020. The grant required a 50% match from the County. As part of the County's plan to utilize ARPA funds for infrastructure improvements, \$6.5 million in funding was allocated in FY 2021 to support the remaining cost for the project.

#### Strategic Initiative

(EN1) Ensure County's water quality and stormwater regulations, programs and projects are evaluated and implemented holistically to advance the County's adopted strategic priority: to protect the quality and supply of our water. (2022-16) Upgrade or eliminate 500 septic tanks in the Primary Springs Protection Zone. (BG2)

#### Stormwater Infrastructure Preventative Maintenance

Dept/Div: **Engineering Services** Comp Plan CIE Project: N/A 067006 Capital Improvement: N/A Project #: Level of Service Standard: Service Type: **Physical Environment** N/A Status: **Existing Project** Strategic Priority: EN<sub>1</sub>

#### Project Description/Justification

This project provides a means for replacement of major cross drains that are beyond the realm of maintenance activity due to size, location and cost. As part of the stormwater requirements for the County's Non Point Discharge Elimination System (NPDES) permit, an inventory and inspection of the major stormwater systems in unincorporated Leon County was conducted to proactively prioritize and schedule the replacement of more than 1,000 major culverts before failure.

To ensure some FY 2024 capital projects related to facilities improvements and vehicle purchases are not delayed due to supply chain issues, \$1,101,744 in Transportation Trust funding was advanced funded in FY 2023 to support the following FY 2024 planned construction, repairs and maintenance:

FY 2024 includes funding for construction of Old Plank Road at Chicken Branch Crossing and construction for Antlers Subdivision. FY 2024 includes design funding for Munson Slough Embankment repair. Outyear budget contemplates construction anticipated at \$1.6 million.

Future projects include improvements on Old Magnolia at Panther Creek, Capitola Road, Black Creek Crossing on Miccosukee Road, Sandstone Ranch Subdivision. These projects will be prioritized based on funding availability. Additional projects will continue to be identified for future funding. These projects will be prioritized based on funding availability. Additional projects will continue to be identified for future funding.

Completed Projects: Veterans Memorial Drive Kinhega Drive Tram Road Cross Drain Replacement Crowder Road Outfall

#### Policy/Comprehensive Plan Information

Stormwater Managment Goal 1- Provide a stormwater management system which protects the health, welfare and safety of the general public by reducing damage and inconvenience from flooding and protect surface water and groundwater quality.

#### Operating Budget Impact

# **Stormwater Pond Repairs**

Dept/Div: **Public Works - Operations** Comp Plan CIE Project: N/A 066026 Capital Improvement: N/A Project #: Service Type: **Physical Environment** Level of Service Standard: N/A Status: **Existing Project** Strategic Priority: EN1

#### Project Description/Justification

This project provides funding for the planned repair and replacement of stormwater structures including filters associated with County-owned stormwater facilities and roadways. The County has a large number of aging stormwater systems which have deteriorated and may not function at optimal levels during large rainfall events. These repairs are essential to provide for public safety and ensure that stormwater facilities continue to meet environmental and operating permit requirements. Poorly functioning systems can suffer from reduced storage capacity causing an increased potential for flooding.

Funding in the amount of \$100,000 is programmed for the next five years for these repairs. Due to continuous failures of the View Point Pond drainage system, funding is allocated in FY 2024 (\$100,000) for design and FY 2025 (\$400,000) for the reconstruction.

#### Strategic Initiative

(EN1) Ensure County's water quality and stormwater regulations, programs and projects are evaluated and implemented holistically to advance the County's adopted strategic priority: to protect the quality and supply of our water. (2022-16)

#### Operating Budget Impact

Stormwater Pond Repairs

# Stormwater Vehicle & Equipment Replacement

Dept/Div: Fleet Management Comp Plan CIE Project: N/A 026004 Capital Improvement: N/A Project #: Service Type: **Physical Environment** Level of Service Standard: N/A Status: **Existing Project** Strategic Priority: Q3, EN1, E

# Project Description/Justification

This project is for the replacement of stormwater vehicles and equipment. Vehicles and equipment are replaced based on a factor of the number of miles, operating hours and repair costs to determine if it is more cost effective to replace the vehicle rather than continue maintaining the vehicle or equipment. It is estimated that the vehicles/equipment being replaced will generate \$68,000 in surplus sales. To ensure some FY 2024 capital projects related to parks and facilities improvements and vehicle purchases are not delayed due to supply chain issues, \$645,000 in dedicated general revenue fund balances and ARPA revenue replacement was advanced funded in FY 2023 to support the following FY 2024 replacement schedule:

Department	Year/Make Description	Mileage/Hour	Original Cost	Repair Cost to Date	Estimated Replacement Cost
Operations	2007 Mack Roll Off	189,742	\$126,257	\$88,838	\$240,000
Operations	2011 Cat Skid Steer	1,597	\$80,726	\$53,845	\$135,000
Operations	2012 Look Trailer	N/A	\$9,949	\$13,429	\$20,000
Operations	2013 Caterpillar Tree Truck	82,400	\$198,635	\$87,795	\$250,000

#### Strategic Initiative

(EN1) Ensure County's water quality and stormwater regulations, programs and projects are evaluated and implemented holistically to advance the County's adopted strategic priority: to protect the quality and supply of our water. (2022-16) Increase the number of fully electric vehicles in the County's fleet by 500%. (T8)

#### **Financial Summary**

Funding Source	Life To Date FY 2022	Adjusted Budget FY 2023	Year To Date FY 2023	FY 2024 Budget	FY 2025 Planned	FY 2026 Planned	FY 2027 Planned	FY 2028 Planned	5 Year Total	Total Project Cost
305 Capital Improvements	7,458,052	1,477,081	416,949	0	1,024,520	1,011,000	1,250,425	1,081,500	4,367,445	13,302,578
	7,458,052	1,477,081	416,949	0	1,024,520	1,011,000	1,250,425	1,081,500	4,367,445	13,302,578

## Policy/Comprehensive Plan Information

In accordance with the Green Fleet Policy, each vehicle and equipment replacement will be evaluated to make every effort to purchase and use the lowest emission vehicle or equipment item possible, while taking into account the vehicle's life cycle costs, miles per gallon, life cycle environmental impacts, and ability to support Leon County's operation and services.

#### **Operating Budget Impact**

There are no new operating costs associated with replacing vehicles and equipment. The applicable fuel, maintenance, and insurance costs have already been budgeted.

# Transfer Station Heavy Equipment Replacement

Dept/Div: Fleet Management Comp Plan CIE Project: N/A 036010 Capital Improvement: N/A Project #: Level of Service Standard: Service Type: **Physical Environment** N/A Status: **Existing Project** Strategic Priority: EN3, EN4

# Project Description/Justification

This project is for the replacement of transfer station equipment. Vehicles and equipment are replaced based on a factor of the number of miles, operating hours and repair costs to determine if it is more cost effective to replace the vehicle rather than continue maintaining the vehicle or equipment. It is estimated that the vehicles/equipment being replaced will generate \$155,000 in surplus sales. The following is the FY 2024 replacement schedule:

Department	Year/Make Description	Mileage/Hour	Original Cost	Repair Cost to Date	Estimated Replacement Cost
Transfer Station	John Deere Backhoe	3,536	\$154,545	\$21,217	\$225,000
Transfer Station	John Deere Loader	6,356	\$380,000	\$138,385	\$550,000

#### **Strategic Initiative**

Increase the number of fully electric vehicles in the County's fleet by 500%. (T8)

#### Policy/Comprehensive Plan Information

Florida Statutes Chapter 403

Florida Administrative Code Rule 62-701

Florida Department of Environmental Protection Operating Permit - requires sufficient equipment, including backup equipment, to promptly remove the waste from the tip floor each day, on a first in, first out basis. No waste is allowed on the tip floor overnight.

In accordance with the Green Fleet Policy, each vehicle and equipment replacement will be evaluated to make every effort to purchase and use the lowest emission vehicle or equipment item possible, while taking into account the vehicle's life cycle costs, miles per gallon, life cycle environmental impacts, and ability to support Leon County's operation and services.

#### Operating Budget Impact

There are no new operating costs associated with replacing vehicles and equipment. The applicable fuel, maintenance, and insurance costs have already been budgeted.

# >>> Transfer Station Improvements

Comp Plan CIE Project: Solid Waste Dept/Div: N/A 036023 Capital Improvement: N/A Project #: Level of Service Standard: Service Type: **Physical Environment** N/A Status: **Existing Project** Strategic Priority: EN3

#### Project Description/Justification

This project provides funds for ongoing maintenance and repairs of the buildings and grounds at the Gum Road Transfer Station. Transfer Station improvements will be designed by Public Works Engineering or the Division's environmental compliance consultant as appropriate. This funding is for general improvements and maintenance of the facility.

The initial phase of work has been completed and consisted of the removal and replacement of the reinforced concrete drive aisle and associated leachate catchment features, along with the renewal of steel armor-plating of the push walls and ramp extension at the wash rack. Phase 1 of the milling, resurfacing, and base repair for the exterior drive aisles were completed in June 2023. Construction for Phase 2 of the project is anticipated to begin in December 2023.

#### Policy/Comprehensive Plan Information

This project allows the county to meet the Objectives and Level of Service Standard in the Solid Waste sub-element of the comp plan; Goals & Objectives: Objective 1.4 meets the requirements of Rule 9J-5.011. LOS is defined in Policy 1.5.1 [SW].

# Operating Budget Impact

Leon County Transfer Station

# Woodville Sewer Project

Dept/Div: **Engineering Services** Comp Plan CIE Project: N/A 062003 Capital Improvement: Project #: N/A Service Type: **Physical Environment** Level of Service Standard: N/A Status: **Existing Project - Carryforward** Strategic Priority: EN1, EN2

#### Project Description/Justification

During the development of the grant agreements and discussion of future projects, priorities, and a shared desire to improve water quality in our region, the Florida Department of Environmental Protection (FDEP) proposed an ongoing financial partnership whereby the state would prioritize and match local funds for future Leon County projects. As a result, staff developed a tentative seven-year improvement plan that continues to implement the County's commitment for water quality and springs protection projects in Leon County. The local match for the future water quality grants is made through the County's share of the \$42.5 million Blueprint 2020 Water Quality and Stormwater Improvement allocation. The "Tentative Leon County Water Quality and Springs Protection Improvement Plan" is estimated to result in the leveraging of an additional \$20.4 million in state matching grants through FY 2024.

This project will provide the design and construction of the central sewer collection system in the northern half of the Woodville Rural Community, the design of the transmission system connecting to the City of Tallahassee's system and the purchase of the required lift station sites. At the completion of the entire septic to sewer conversion project, an estimated 1,000 septic tanks will be removed as part of this project scope. The project implements the Upper Wakulla River Basin Management Action Plan to reduce nitrogen loadings to Wakulla Springs by providing central sewer service for the limited areas of Woodville Rural Community. This is a 50/50 grant match funded project with the match funding being provided by the County. Subsequent funding will be pursued for construction of the sewer collection and transmission system being designed under this Phase of the Woodville Septic to Sewer Project. The engineering design started in February 2019. The sewer project is divided into four Phases: 1A, 1B, 1C-1 and 1C-2 to spread out the construction costs and funding arrangement. The Woodville Sewer Phase 1A Design was completed in November 2022 and the Construction started in May 2023. Phase 1A Construction and Construction Engineering Inspection (CEI) is \$15.1 million. Currently, Woodville Sewer Phase 1B Design is underway.

Due to increases in construction costs, the County is seeking additional matching funds from FDEP to assist in funding planned sewer projects in the Primary Springs Protection Zone. Based on recent construction bids, funds are currently not available to complete the construction of all planned Primary Spring Protection Zone sewer projects including future Woodville phases, without additional matching support from the state and/or Federal governments.

#### Strategic Initiative

Upgrade or eliminate 500 septic tanks in the Primary Springs Protection Zone. (BG2)

# Policy/Comprehensive Plan Information

Comprehensive Plan Land Use Policy 1.1.4 states "Central water and sewer may be provided in areas designated as Rural Community, Woodville Rural Community . . . . " Land Use Policy 1.1.3 limits capital infrastructure designed to support urban density outside the Urban Service Area to instances such as the Woodville Rural Community where there is the potential of severe environmental degradation if no improvements are made, such as the high nitrogen loads from septic tanks.

## **Operating Budget Impact**

# **>>>**Transportation Overview

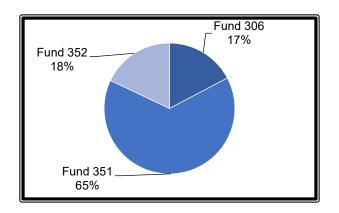

#### Overview

The Transportation section contains capital improvement projects designed to facilitate the provision of services in the Leon County Transportation Program. Major Transportation capital projects funded in FY 2024 include Arterial/Collector and Local Road Resurfacing, Sidewalk Program, Transportation and Stormwater Improvements, and Livable Infrastructure for Everyone (L.I.F.E.) projects.

# **Funding Sources**

Chart 25.8 illustrates 65% or (\$6,319,305) of the Sales Tax Extension (Fund 351) funds the FY 2024 transportation budget. The Gas Tax (Fund 306) funds 17% (\$1,685,090) and Sales Tax Extension (Fund 352) funds the remaining 18% (\$1,750,000) for Blueprint JPA sidewalk projects and L.I.F.E. projects.

Chart 25.8
FY 2024 Transportation Projects
by Funding Source

# Managing Divisions

Table 25.14 shows Engineering Services will manage thirteen or 76% of the FY 2024 Transportation capital improvement projects. Fleet Management and Operations will each manage two projects, or the remaining 24% of the FY 2024 Transportation projects.

Table 25.14
FY 2024 Transportation Projects
by Managing Division

Managing Division	# of Projects	FY 2024 Budget
Engineering Services	13	\$9,459,227
*Fleet Management	2	\$0
Operations	2	\$295,168
Total	17	\$9,754,395

<sup>\*</sup>These projects were advanced funded in FY 2023 and will be carried forward into FY 2024.

## **Operating Budget Impacts**

Table 25.15 shows the estimated impacts that some Transportation projects have on the operating budget. Impacts are shown in the fiscal year which they are anticipated to begin as well as the outyears that are affected by additional operating costs. These impacts are only estimates and subject to change.

**Table 25.15** Transportation Operating Budget Impacts

# Arterial & Collector Roads Pavement Markings

Dept/Div: **Public Works - Operations** Comp Plan CIE Project: N/A Project #: 026015 Capital Improvement: N/A Level of Service Standard: Service Type: Transportation N/A Status: **Existing Project** Strategic Priority: G2,Q3

#### Project Description/Justification

This project allows for the refurbishing of long line thermoplastic on the County's Arterial and Collector Road System. Due to annual resurfacing and reconstruction projects, the number of roads with thermoplastic markings has increased substantially.

Public Works refurbishes pavement markings on approximately 10 miles of arterial and collector roads annually. This change allows for refurbishing of aging thermoplastic markings in a more timely manner and improves the coordination between asphalt resurfacing and thermoplastic refurbishing activities.

Dept/Div: **Engineering Services** Comp Plan CIE Project: N/A 056001 Capital Improvement: N/A Project #: Level of Service Standard: Service Type: Transportation N/A Status: **Existing Project** Strategic Priority:  $Q_3$ 

#### Project Description/Justification

This project is for the annual resurfacing of part of the County's arterial/collector road and local road systems. The County is responsible for the general superintendence and control of the County roads and structures. There are approximately 252 miles of arterial/collector roads in the County system in addition to approximately 340 miles of local roads. At this funding level, it can be expected that all arterial/collector roads will be resurfaced on a 25 year frequency while the local roads will be resurfaced based on the condition ratings and available funding each year.

Public Works is in the process of preparing an RFP for a comprehensive pavement condition study to determine the pavement condition index for each County maintained paved road. The study will evaluate various asphalt surface treatment options for each road, including asphalt milling, resurfacing, reconstruction, etc. The results of the study and treatment options is anticipated to increase the number of roads receiving surface treatment annually. A request for proposals will go out in early FY 2024 and once a bid has been awarded, the study will take approximately 18 months to complete.

This project was previously funded by the 10% share of the Sales Tax Extension dedicated to Leon County. The project funding shifted to the County's 10% share of the 2nd Sales Tax Extension (Blueprint 2020) in January 2020.

Status: **Existing Project** Strategic Priority: EN4, Q5, Q3

#### Project Description/Justification

This project is for the planning, design, and construction of traffic calming devices. On February 16, 2021, the Board approved the Traffic Calming Program Policy which establishes program criteria for determining minimum qualifications and traffic calming project prioritization. Depending on the root causes identified and the physical characteristics of the impacted neighborhood, some combination of the following improvements may be considered to "calm" traffic: speed tables, speed humps, pavement treatment, pavement markings, or raised intersections. \$100,000 in funding is allocated in FY 2026.

This project previously included funding for the planning, design, and construction of sidewalks. All sidewalk funding previously included in this project shifted to the Sidewalk Program capital project #056013, which is funded by the 2nd Sales Tax Extension (Blueprint 2020), and half of the 2nd Local Option Gas Tax.

#### Strategic Initiative

(Q5) Continue to work with the Florida Department of Transportation for safety improvements on State and County roadways to include accessibility enhancements, street lighting installations, sidewalk additions, safety audits, and intersection improvements. (2022-26)

# >>> DOT Old Bainbridge Rd @ CC NW

Dept/Div: **Engineering Services** Comp Plan CIE Project: N/A 053011 Capital Improvement: N/A Project #: Service Type: Transportation Level of Service Standard: N/A

Status: **Existing Project - Carryforward** Strategic Priority: EC1, Q3, Q5

# Project Description/Justification

This project is for safety improvements at the Old Bainbridge Road at Capital Circle Northwest intersection. Old Bainbridge Road intersects Capital Circle Northwest at a severe angle, which makes northbound traffic on Capital Circle Northwest difficult to turn onto Old Bainbridge Road. In addition, the drivers on Old Bainbridge Road going northbound have difficulty seeing the oncoming traffic on Capital Circle Northwest because of the angle. The proposed improvement will realign Old Bainbridge Road 350 feet to the south connecting it with Gateway Drive to the west. This realignment will provide a safe intersecting angle of Old Bainbridge Road to Capital Circle and add a westbound left turn lane to Old Bainbridge Road.

This project is supported by a State Funded Grant through Florida Department of Transportation. In FY 2020, FDOT provided \$80,000 of the total \$160,000 toward the project costs for design with a 50% match required from the County, budgeted in FY 2023. Design is complete and the project is the permitting process. Once permitting is complete, construction funds will be available in State FY 2025. A State Funded Grant LAP Agreement will be executed with FDOT for construction, estimated at \$1,403,000.

#### Strategic Initiative

(Q5) Continue to work with the Florida Department of Transportation for safety improvements on State and County roadways to include accessibility enhancements, street lighting installations, sidewalk additions, safety audits, and intersection improvements. (2022-26)

## Intersection and Safety Improvements

Dept/Div: **Engineering Services** Comp Plan CIE Project: N/A 057001 Project #: Capital Improvement: N/A Transportation Level of Service Standard: N/A Service Type: **Existing Project** Strategic Priority: EC<sub>1</sub> Status:

#### Project Description/Justification

This project is for the improvement of intersections throughout the County in order to maintain safe and efficient operations. Intersection improvements can also have significant impacts on the capacity of road sections as it relates to concurrency management. Annually, County intersections are assessed and occasionally, projects can be coordinated with improvements being performed by other governmental agencies such as the Florida Department of Transportation (FDOT) and the City of Tallahassee to reduce the long-term costs to the County. Intersection improvements that have significant costs or other impacts are typically established as an independent project and are not included in this project.

#### Intersection improvements currently in design:

Blair Stone/Old St. Augustine, North Monroe Street/Crowder, and Harpers Ferry/Centerville (Design and permits and right-of-way acquisition for Harpers Ferry/Centerville is anticipated for completion in 2023, with construction initiated in FY 2024).

#### Future projects:

Old Bainbridge Road/Portland Avenue

Intersection improvements completed:

Rhoden Cove/Meridian, Geddie & US 90, Aenon Church & SR 20, Medallion Way/Buck Lake Road, Geddie & SR 20 Signalization, Dempsey Mayo Road/Emerald Chase

This project was previously funded by the 10% share of the Sales Tax Extension dedicated to Leon County. The project funding shifted to the County's 10% share of the 2nd Sales Tax Extension (Blueprint 2020) in January 2020. Project delivery is subject to funding availability.

#### Strategic Initiative

(Q5) Continue to work with the Florida Department of Transportation for safety improvements on State and County roadways to include accessibility enhancements, street lighting installations, sidewalk additions, safety audits, and intersection improvements. (2022-26)

# Policy/Comprehensive Plan Information

Comprehensive Plan Reference: TRAFFIC FLOW AND EFFICIENCY: Objective 1.5: [T] Improve the safety and preserve the integrity of the arterial and collector street system with an effective access management and traffic signal control program and with the use of traffic operations features to maximize the capacity of the existing street system.

Florida Statute 336.02 - Responsibility for county road systems and structures within the county's jurisdiction.

#### Operating Budget Impact

Operating impacts are for the maintenance of new signals by the City of Tallahassee under the existing interlocal agreement. These costs are addressed in Public Works - Operations operating budget. Pavement enhancements at intersections are negligible additions to the pavement maintenance program. Any associated stormwater treatment facilities maintenance costs are budgeted in the operating budget of the Division of Operations.

# \bigcirc L.I.F.E. Neighborhood Enhancements & Transportation Safety

Dept/Div: **Engineering Services** Comp Plan CIE Project: N/A Project #: 091006 Capital Improvement: N/A Level of Service Standard: Service Type: Transportation N/A Status: **Existing Project** Strategic Priority:  $Q_3$ 

#### Project Description/Justification

In November 2014, Leon County residents approved a referendum providing a second extension of the 1 Cent Local Option Sales Tax beginning in FY 2020 for 20 years. Blueprint 2020 provides funding for Livable Infrastructure for Everyone (L.I.F.E.) projects. The L.I.F.E. projects are an allocation of 2% of the Blueprint 2020 Sales Tax Extension funding. L.I.F.E. projects will address Leon County rural area basic infrastructure needs.

The Transportation & Neighborhood Enhancements category is added for FY 2024. Funding will be used to address project needs in multiple expenditure categories identified in the L.I.F.E. Policy. These projects include culvert repairs, replacements, or upgrades; traffic safety and emergency access projects; and stormwater erosion and soil stabilization projects. Previously, significant L.I.F.E. funding was allocated for the Miccosukee Sense of Place project. However, the County was successful in receiving federal funds for this project thereby reducing the need for L.I.F.E. funding. This allows the County to now provide funding for this new category.

The FY 2024 L.I.F.E. schedule includes funding of \$275,000 per year through FY 2028.

#### L.I.F.E. Rural Road Safety Stabilization

Dept/Div: **Engineering Services** Comp Plan CIE Project: N/A 091003 Capital Improvement: N/A Project #: Service Type: Transportation Level of Service Standard: N/A Status: **Existing Project** Strategic Priority:  $\mathbf{Q}5$ 

#### Project Description/Justification

In November 2014, Leon County residents approved a referendum providing a second extension of the 1 Cent Local Option Sales Tax beginning in FY 2020 for 20 years. Blueprint 2020 provides funding for Livable Infrastructure for Everyone (LIFE) projects. The LIFE projects are an allocation of 2% of the Blueprint 2020 Sales Tax Extension funding. LIFE projects will address Leon County rural area basic infrastructure needs.

The unincorporated area of Leon County contains over 350 miles of private dirt roads encompassing various segments that are not well maintained. While road conditions often deteriorate over time without maintenance, in certain situations dirt roads have deteriorated to the point of causing safety concerns for emergency vehicles with limited accessibility due to washed-out roads with unstable sand/clay, impassable depths, or wheel-path width. Extreme weather and climate conditions such as recent hurricanes, tropical storms, torrential rains, and prolonged periods without rain each accelerate the deterioration and make it difficult in navigating dirt roads when they are not adequately maintained.

During the June 18, 2019 Budget Workshop, the Board approved the L.I.F.E. Rural Road Safety Stabilization Program Policy to assist financiallyrestricted property owners in restoring unsafe and inadequately maintained private dirt roads. To be eligible for a Rural Road Improvement project, 60% of the property owners abutting the rural road proposed for improvement must be deemed to be a low-income households. Property owners abutting the project area are required to complete a Household Income Certification form as part of the application process for purposes of income verification.

The Board approved allocation of \$100,000 for FY 2024 through FY 2028 for a total of \$500,000 in L.I.F.E. funding over a five-year period. Based on a review by Public Works Engineering staff, many of these dirt roads are less than a mile in length. Given the funding allocation, approximately three to four miles a year or approximately 15 to 20 miles over the five-year period will be stabilized. Due to funding availability, the program will only provide a one-time improvement within a specific project boundary. This program is specifically tailored to utilize in-house resources at Public Works to repair unsafe dirt roads since Florida Statutes does not allow for the resurfacing of privately owned paved roads unless the funds are paid back to the County through an assessment. The County began accepting requests for the L.I.F.E. Rural Road Safety Stabilization Program in the fall of 2019. To date, the County has completed twelve projects: Mamie Lane, Daniel Lee Trail, Johnherb Lane, Willie Frances Trail, Backforest Lane, Minnie Rose, Kinfolks Loop, and Silver Branch, Kin Cross Lane, Wilkinson Woods, Ranger Road and Sassafras Trail.

#### Project Description/Justification

In November 2014, Leon County residents approved a referendum providing a second extension of the 1 Cent Local Option Sales Tax beginning in FY 2020 for 20 years. Blueprint 2020 provides funding for Livable Infrastructure for Everyone (LIFE) projects. The LIFE projects are an allocation of 2% of the Blueprint 2020 Sales Tax Extension funding. LIFE projects will address Leon County rural area basic infrastructure needs.

Over the past several years, the County has seen a continued increase in citizen requests for street lights in unincorporated areas. To maximize the benefit of the County's limited resources and enhance public safety through increased visibility for both drivers and pedestrians, in 2017 the Board adopted Policy No. 17-2, "Street Lighting Eligibility Criteria and Implementation" which provides specific criteria for the placement of street lights in the unincorporated area on County roads and intersections.

At the April 25, 2023 Budget Workshop, the Board approved a revision to the Street Lighting Policy to include the Unincorporated Area School Bus Stop Lighting program. This revision provides specific criteria for new street light installations as school bus stops proposed within the unincorporated area of Leon County.

The street lighting program is currently funded at \$125,000 per year in the County's five-year Capital Improvement Program. Current funding supports 12 to 18 street lighting intersection projects per year. Specific street lighting projects continue to be developed consistent with the policy, and to date, the County has installed over 48 street lights.

# Magnolia Drive Multi-Use Trail

Dept/Div: **Engineering Services** Comp Plan CIE Project: N/A Capital Improvement: 055010 N/A Project #: Level of Service Standard: Service Type: Transportation N/A

Status: **Existing Project - Carryforward** Strategic Priority: EC1, Q3, Q5

# Project Description/Justification

This project is for the implementation of the Magnolia Drive Multiuse Trail. Magnolia Drive is a County-maintained major collector roadway, which the County is responsible for construction of sidewalk improvements. The roadway is also a key pedestrian and bicycle corridor listed in the Regional Mobility Plan as well as the Safe Routes to School document. This project will be completed in seven phases. Based on citizen's input, the Intergovernmental Agency (Blueprint) approved the modified design approach, multi-use trail typical section and underground electric. Some of the phases will be combined for construction, however construction may not occur sequentially.

Currently, five phases are under design for underground electric and a redesign of the multi-use trail. Phase I redesign was completed in FY 2020 and Phase IV and Phase I Construction began in FY 2021 and was completed in the FY 2022. A bid for CEI (construction engineering and inspection) services was awarded in FY 2023 and Phase II construction is anticipated to commence in early FY 2024.

Phase I - South Meridian Road to Pontiac Drive is complete.

Phase II - Pontiac Drive to Diamond Street

Phase III - Diamond Street to Apalachee Parkway

Phase IV - Multiuse Trail from South Meridian Road to South Monroe Street was completed in Summer 2022.

Phase V - (combined with Phase 3) Continuation of Multiuse Trail from Chowkeebin Nene to Apalachee Parkway

Phase VI - Streetscape from South Monroe to South Adams - (Sidewalks on both sides completed in Fall 2017)

#### Strategic Initiative

(EC1) Continue to implement catalytic public infrastructure projects through Blueprint and the County's five-year CIP that provide connectivity and leverage public and private investments. (2022-1)

**Engineering Services** Dept/Div: Comp Plan CIE Project: N/A 065005 Capital Improvement: N/A Project #: Level of Service Standard: Service Type: Transportation N/A Status: **Existing Project - Carryforward** Strategic Priority:  $Q_3$ 

# Project Description/Justification

After a series of storm events in December 2018 and January 2019, a portion of Maylor Road was overtopped by stormwater. This project is to ensure accessibility of Maylor Road based on the recorded high-water elevation and mitigate yard flooding when feasible. The project will include elevating portions of the roadway and evaluating suitable areas to provide additional flood storage within the closed basin. Preliminary engineering analysis was completed in FY 2020, with design services being completed in May 2022. Based on the 100% design document, the overall construction estimate increased by \$478,290. To bolster the transportation capital program, and fund critical road/flooding projects that were delayed or not considered because of COVID, \$2.7 million in American Rescue Plan Act (ARPA) replacement revenue funding was recommended to shore up the transportation capital program, of which \$356,500 was allocated in FY 2021 for this project. The final design and permits were completed by May 2022. Project status is pending the completion of the temporary construction easement acquisition process.

# Miccosukee Road Bridge Replacement

Dept/Div: **Engineering Services** Comp Plan CIE Project: N/A 057918 Capital Improvement: N/A Project #: Service Type: Transportation Level of Service Standard: N/A Status: **Existing Project - Carryforward** Strategic Priority: Q5, Q3

# Project Description/Justification

The bridge replacement will be designed by FDOT and constructed by Leon County, with FDOT providing 75% of total funding and Leon County providing a 25% local match. The total costs for replacement of the bridge is estimated at \$3.1 million, including an estimated design fee of \$803,720 and an estimated construction and Construction Engineering Inspection (CEI) cost of \$2.46 million. FDOT has advised that right of way acquisition will not be required for this project.

The Locally Funded Agreement with FDOT for the County to provide the 25% local match for design (\$180,000) was approved by the Board at the September 24, 2019 meeting. In January 2021, FDOT notified the County of an increase in design fees, which required an additional \$20,930 in the County's local match. After the design work is completed, an additional Local Agency Program (LAP) Agreement will be brought back to the Board for approval to provide the County's match for construction and CEI services in the estimated amount of \$576,500. The project only includes funding for the County's 25% match. The remaining 75% funding will be a reimbursable grant from FDOT. To bolster the transportation capital program, and fund critical road/flooding projects that were delayed or not considered because of COVID, \$2.7 million in American Rescue Plan Act (ARPA) replacement revenue funding was recommended to shore up the transportation capital program, of which \$567,500 was allocated in FY 2021 for this project.

A construction Local Agency Program (LAP) agreement was approved by the Board at the September 12, 2023 meeting. Construction is anticipated to be completed in early FY 2025.

#### Strategic Initiative

Dept/Div: **Engineering Services** Comp Plan CIE Project: N/A Project #: 051009 Capital Improvement: N/A Level of Service Standard: Service Type: Transportation N/A Status: **Existing Project** Strategic Priority: Q3, EC1

#### Project Description/Justification

This project restores the asphalt roads inside the North Florida Fairgrounds. As specified in the lease agreement with the North Florida Fairgrounds, the County is required to maintain the internal roads on the fairgrounds. The internal service roads inside the Fairgrounds have aged after many years of service. The asphalt surface has cracks and is deteriorating. In August 2016, the Fairgrounds Property Manager requested the County assist in the road repair inside the North Florida Fairgrounds. The Operations Division completed the pot hole patching work shortly after receipt of the request in 2016. Upon further inspections of the roads, it was determined that the internal roads needs to be resurfaced. This project was anticipated to be completed in FY 2021, however, due to budget reductions related to COVID-19, this project is scheduled to be completed in FY 2025, pending results of the current Fairgrounds Revitalization project in which the layout of the grounds may change depending on the final design and analysis.

#### Strategic Initiative

Public Works - Motor Grader

# >>> Open Graded Hot Mix Maintenance and Resurfacing

Dept/Div: **Public Works - Operations** Comp Plan CIE Project: N/A Project #: 026006 Capital Improvement: N/A Level of Service Standard: N/A Service Type: Transportation Status: **Existing Project** Strategic Priority:  $Q_3$ 

#### Project Description/Justification

This project provides funding for materials and contract services associated with asphalt maintenance on Leon County's Open Grade Mix roadways. As Open Grade Mix roads age, it can be anticipated that these older roads will require a higher degree of maintenance (i.e. patching and rejuvenation) than in recent years. It can further be anticipated that some of these roads will require resurfacing. Additionally, permitting requirements on the County's Open Grade Mix roads require that porosity within the Open Grade may be maintained by either hydro-cleaning or other maintenance methods. To meet these needs, funding is required for both routine maintenance and scheduled resurfacing of Open Grade Mix roads.

This project is funded by the 10% share of the 2nd Sales Tax Extension (Blueprint 2020) dedicated to Leon County.

# >>> Public Works Vehicle & Equipment Replacement

Dept/Div: Fleet Management Comp Plan CIE Project: N/A 026005 Capital Improvement: N/A Project #: Level of Service Standard: Service Type: Transportation N/A Status: **Existing Project** Strategic Priority: Q3, EN4

# Project Description/Justification

This project is for the replacement of Public Works vehicles and equipment. Vehicles and equipment are replaced based on a factor of the number of miles, operating hours and repair costs to determine if it is more cost effective to replace the vehicle rather than continue maintaining the vehicle or equipment. It is estimated that the vehicles/equipment being replaced will generate \$360,400 in surplus sales and an additional \$268,400 in equipment buyback revenue. To ensure some FY 2024 capital projects related to facilities improvements and vehicle purchases are not delayed due to supply chain issues, \$1,258,000 in Transportation Trust funding was advanced funded in FY 2023 to support the following FY 2024 replacement schedule:

Department	Year/Make Description	Mileage/Hour	Original Cost	Repair Cost to Date	Estimated Replacement Cost
Operations	2012 Ford F-350	121,914	\$35,543	\$24,667	\$55,000
Operations	2012 Volvo Motograder	2,786	\$250,646	\$22,814	\$380,000
Operations	2014 Bush Hog Mower	N/A	\$13,399	\$40,053	\$25,000
Operations	2014 Bush Hog Mower	N/A	\$13,399	\$30,229	\$38,000
Operations	2018 John Deere Motor Grader	2,485	\$250,646	\$14,219	\$380,000
Operations	2018 John Deere Motor Grader	2,306	\$250,646	\$26,697	\$380,000

#### Strategic Initiative

Increase the number of fully electric vehicles in the County's fleet by 500%. (T8)

# Policy/Comprehensive Plan Information

In accordance with the Green Fleet Policy, each vehicle and equipment replacement will be evaluated to make every effort to purchase and use the lowest emission vehicle or equipment item possible, while taking into account the vehicle's life cycle costs, miles per gallon, life cycle environmental impacts, and ability to support Leon County's operation and services.

#### **Operating Budget Impact**

There are no new operating costs associated with replacing vehicles and equipment. The applicable fuel, maintenance, and insurance costs have already been budgeted.

#### Sidewalk Program

Dept/Div:Engineering ServicesComp Plan CIE Project:N/AProject #:056013Capital Improvement:N/AService Type:TransportationLevel of Service Standard:N/A

Status: Existing Project Strategic Priority: EN4, EC1, Q3

#### Project Description/Justification

This project is for the planning, design, and construction of sidewalks. The sidewalk network is to safely and conveniently connect individual residences to schools, shopping and recreations, as well as to the collector and arterial roads where transit is provided. The sidewalks are identified in the County priority list.

In FY 2014, the Board approved levying the additional five-cent gas tax. This tax went into effect January 01, 2014. The Board directed staff to allocate the gas tax revenue 50/50 between transportation operating expenditures and capital expenditures. Beginning in FY 2020, the Blueprint 2020 sales tax provided the County funds for sidewalk construction. Blueprint provides \$1.25 million per year in funding each year.

In November 2014, Leon County residents approved providing a second extension of the 1-Cent Local Option Sales Tax beginning in FY 2020 for 20 years. Blueprint 2020 set aside \$50 million (50/50 County and City) of sales tax extension revenue for County/City Sidewalk Projects funding.

On May 12, 2015, the Board approved the Safe Routes to Schools and Community Sidewalk Enhancements Tier Prioritization Lists. This project is jointly funded with the additional five-cents gas tax and the Blueprint 2020 2nd sales tax extension, which took effect January 2020.

Funding for sidewalks in the Community Safety and Mobility capital project #056005 reflects the shift from gas taxes program funding to the 2nd Sales Tax Extension (Blueprint 2020) in January 2020.

#### Strategic Initiative

(EC1) Continue to implement catalytic public infrastructure projects through Blueprint and the County's five-year CIP that provide connectivity and leverage public and private investments. (2022-1)

(Q5) Continue to work with the Florida Department of Transportation for safety improvements on State and County roadways to include accessibility enhancements, street lighting installations, sidewalk additions, safety audits, and intersection improvements. (2022-26)
Construct an additional 90 miles of sidewalks, greenways, trails, and bike lanes. (T11)
